GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

22nd December 1877, No. 2,224 W.

General.

Account.

Read the following papers :—

No. 202. From Lieutenant-Colonel R. B. KENNEDY, District Engineer, Malabar, to the Chief Engineer, Public Works Department, dated Camp at Manan-toddy, 22nd October 1877, No. 104.

I HAVE the honor to forward an indent for certain articles required by the Cannanore Divisional Officer from the Arsenal at that station for the purpose of annually hoisting and lowering the flagstaff and otherwise repairing it; hitherto these stores were supplied from the Ordnance Depot when required; as the depot is about to be abolished, and all stores ordered to be sent to Madras or sold, the Military authorities at Cannanore wish the stores now indented for may be retained in the Department Public Works Stores there.

2. The cost of the stores and transport charges amount are stated by Acting Deputy Inspector-General of Ordnance and Magazines to be Rupees 948-3-4; as I have no funds at my disposal, I beg that the amount may be sanctioned. I am not quite clear about the necessity of the item for transport charges, as it is only for the stores at Cannanore the requisition is made.

No. 202-A. From Captain H. BAILEY, Acting District Engineer, Malabar, to the Chief Engineer, Public Works Department, dated Camp at Calputty, 28th November 1877, No. 127.

In reply to your No. 3,535 of the 26th ultimo, I have the honor to state that the Conservator of the port at Cannanore reports that he can only hoist the flagstaff if an establishment and expenses incurred in doing so are allowed; under these circumstances it is just as easy for the Range Officer to do so.

No. 4,238.

REFERRED to the Master Attendant, Administrative Department, Madras, for any remarks he may wish to offer previous to submission of the proposal to Government, and for opinion as to the source whence funds should be provided.

FORT ST. GEORGE,
3rd December 1877.

(Signed) E. A. FOORD, Colonel, R.E.,
Chief Engineer, P.W.D.

No. 202-B. From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Administrative Department, to the Chief Engineer, Public Works Department, dated Madras, 17th December 1877, No. 8,907.

In returning the indent on the Arsenal at Cannanore for appliances required annually for hoisting and lowering the topmast of the Cannanore flagstaff, I have

the honor to remark that I do not think it necessary to incur so great an expenditure as it occurs to me that all that is required is—

- A good mast rope.
- A top block.
- A luff tackle.
- A watch do.
- A snatch block for a fair lead.

2. I would suggest that the topmast be sent up by the Public Works Officer this season (if it has not already been done) in the manner he has been accustomed to, borrowing the appliances from the Arsenal as in former years, and he might be asked to furnish this office with the length of the topmast, its diameter at heel and head, and the name of the wood of which it is made. The necessary gear before-mentioned could be supplied for future operations, and if a Serang or Tindal cannot be procured locally for conducting the work, some one could be sent from Calicut or Cochin when required, or the topmast might be kept aloft altogether.

No. 203. ORDER THEREON, 22nd December 1877, No. 2,224 W.

THE Master Attendant's letter will be communicated to the District Engineer, Malabar, for information and guidance.

(True Extract.)
