GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

22nd December 1877, No. 2,229 W.

Buildings and Roads.
Civil Works.

Read the following paper:—

No. 212. From Major ROSS THOMPSON, R.E., District Engineer, Presidency, to the Chief Engineer, Roads and Buildings, dated Fort St. George, 8th December 1877, No. 5,235.

With reference to paragraph 20 of G.O., No. 651 W, dated 27th August 1877, I have the honor to submit for sanction and allotment of funds a plan, specification report and estimate amounting to Rupees 1,222 for two pukka brick wells sunk at the Lunatic Asylum.

One Plan.
" Estimate.
" Specification Report.

2. During the last hot season when scarcity of water was much felt several pot wells were sunk in different localities in the compound of the Lunatic Asylum, and it was found that in two of them the water proved good; but as pot wells gave a very inadequate supply the Surgeon-General, Indian Medical Department, requested me to have two of them converted into pukka brick wells.

3. I accordingly ordered the work to be commenced on emergency in anticipation of sanction of Government.

4. A sum of Rupees 656 has been granted in G.O., No. 1,792 W, dated 26th November 1877, for this work, the balance of Rupees 566 I request may now be allotted from funds at the disposal of Government, as I am unable to suggest any source from which it can be provided.

The plan and estimate have been approved by the Surgeon-General, Indian Medical Department.

No. 213. ORDER THEREON, 22nd December 1877, No. 2,229 W.

THE plan and estimate of Rupees 1,222 for two pukka brick wells sunk at the Lunatic Asylum are sanctioned.

2. As no funds are available for appropriation to the work, the District Engineer must suggest transfers from existing grants to meet the balance of Rupees 566 required.

3. This sanction has been registered as Provincial No. 246 B. of 1877-78.

Lunatic Asylum

Herewith estimate
for 2 Pucka brick wells
sunk at the — \$1180.—

L.C.

21 SEP 77

No 375 of 1877 78 of 31st Oct 77. 3 15

Specification to accompany the
Estimate to the Pucka brick wells at the Lunatic
Asylum.

Amount of Estimate Paper. 1180.—

The Lunatic Asylum is a place
where a large and continual supply of water is
absolutely necessary. During the last hot season
the scarcity of water at this place began to be much
felt. To obtain a supply 5 foot wells were sunk
in different localities, it was found that in two
places the water proved to be very good, and as these
foot wells gave out a very inadequate supply, it was
proposed to convert them into two Pucka brick wells.

Accordingly two Pucka wells were
sunk one at the Superintendent's quarters and one at
the Criminal Enclosure.

These wells are each 6 feet in diameter
and are so constructed as to enable the inmates to
draw water easily - a platform 4' broad and a cistern
is attached to each, a further bathing cistern is also
attached.

A grating and trap door covers each well when not in
use to prevent any accidents occurring.
