*Proceedings of the Madras Government, Public Works Department,
2nd January 1877. No. 3.*

Read the following :—

No. 320 W.

No. 5. *Note by the Chief Engineer for Irrigation.*

THE District Engineer, Cuddapah, forwards, with his letter marginally noted, an estimate in connection with the Petha No. 1,426, dated 3rd October 1876, and No. 403, Putha river channel situated in the Cuddapah taluq, Cuddapah range.

2. The nature of the work proposed for execution and the heads of account to which it is chargeable are as follow :—

ORDINARY AGRICULTURAL.

Repairs.

	RS.
Reconstructing an aqueduct	910
Total ...	910

3. The following particulars of this tank are recorded :—

Ayacut area Acres	199	{ Circar 127 Inam 72
Assessment Rupees	2,626	{ Circar 1,542 Inam 1,084
Average revenue Rupees	1,698	
Highest do.	2,063	
Expenditure during the previous four years	149	

The existing aqueduct over the Coppole channel is in a very dilapidated condition and is not susceptible of repair or improvement; it is therefore proposed that it should be reconstructed.

4. The District Engineer, Cuddapah, has submitted an alternative design as suggested by the undersigned consisting of arches in lieu of a continuous wall to carry the channel, and which is slightly cheaper than the first. He suggests that it would be difficult at present to obtain the services of men competent to turn the arches. This is a matter in which the District Engineer must exercise his discretion and he should select the design accordingly.

FORT ST. GEORGE,
29th December 1876.

(Signed)* A. DEC. SCOTT, Major, R.E.,
Dy. Chief Engineer for Irrigation,
for Chief Engineer for Irrigation.

To the Secretary to Government, Public Works Department.
