Read the following paper :—

No. 159 Proceedings of Government in the Judicial Department, dated 2nd July 1877, No. 1,548.

From R. W. BARLOW, Esq, Magistrate of the Chingleput District, to the Chief Secretary to Government, dated Saidapet, 13th June 1877, No 119.

In forwarding the enclosed plan and estimate, amounting to Rupees 700, for constructing a compound wall around the Taluq Cutcherry at Madurantakum, I have the honor to request that you will be good enough to obtain the sanction of Government to the same.

2 As regards the necessity for the work, the Acting Joint Magistrate writes as follows, and in his opinion I concur —

"It is also very necessary to have a wall erected between the Cutcherry premises and the street which adjoins them Owing to there being no wall at present, cattle constantly stray into the cook-house, latrines, and other out-buildings and cause a good deal of nuisance It would be of the greatest advantage if a good durable wall were erected. It would be of little use to erect a mud wall I beg to suggest that an estimate be called for this as soon as possible."

The Governor in Council approves the construction of a compound wall around the Taluq Cutcherry at Madurantakum. Orders will be issued in the Public Works Department for the prosecution of the work when funds are available.

(True Extract.)

Abstract Estimate No. of 1876-77

District Chingleput Taluq Maduranthcum

Village Maduranthcum

Work

Constructing a Compound Wall around the Taluq Cutcherry, Maduranthcum

Quantity	Description of charges	Rate	Per	Amount	Total
99	C. yds. Brick in clay	2	12	C yd 272	4
44½	Do do in Chunam	4	4	do 189	2
63	Sqrs. of Plastering	2	4	Sqr. 141	12
73	C yds of Earthwork		1	C yd 4	9
27	Sqr. ft of Teakwood barred Gate 6×4½ + bolts, hinges complete.		8	Sqft. 13	8
1	Wicket wooden Gate bar complete				3
	Superintendence and Sundries				29 1 30 13
				Total Estimate Rupees	655

The Tahsildar is anxious to have the Compound of the Taluq Cutcherry enclosed with a wall

prevent cattle going into it.

The foundations & walls are to be built of brick in Mud and plastered with Chunam.

The Pillasters to be about 10 feet apart 1½ feet wide and 2 feet thick, built of Brick in Chunam.

The foundations is to be 2 feet deep and the walls 4½ feet high with 9" Coping.

A small Well in the Compound wants a parapet wall, the Estimate provides this.
