*Proceedings of the Madras Government, Public Works Department,
7th February 1877. No. 428.*

No. 219. Read the following letter from Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 31st January 1877, No. 70 :—

I HAVE the honor to forward, for the sanction of the Government of India, an indent, amounting to Rupees 1,22,537, for a supply of general stores required during the half-year ending 31st December 1877 for the South Indian Railway.

2. In some of the articles, especially leather-belting, files, copper pipes, and leather nose, the quantities now indented for, together with the present stock in hand, appear excessive when compared with the average consumption. It must, however, be understood that a large portion of these stores will be required for the different workshops on the newly-opened lines, and the yearly consumption may be expected to increase considerably. Under the circumstances, I am of opinion that the indent now submitted may be sanctioned.

No. 220. ORDER THEREON, 7th February 1877, No. 428.

RAILWAY, No. 18.

THE indent will be forwarded to the Government of India.

SIR,—I am directed to forward an indent for general stores required by the South Indian Railway during the half-year ending the 31st December 1877.

2. The total amounts to Rupees 1,22,537. The Company anticipate a large consumption by the workshops on the newly-opened lines of railway. Hence the demands in the case of several items appear excessive in comparison with the average consumption.

3. His Grace in Council considers that this anticipation is likely to be realized, and recommends that the indent may be sanctioned.

I have the honor to be,
