Read the following papers :—

No. 240. From Major H. M. VIBART, R.E., Officiating District Engineer, Presidency, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 23rd January 1877, No. 5,450.

With reference to paragraph 2 of G.O., No. 43, dated 7th January 1876, I have

1 Estimate.

the honor to submit, for sanction, an estimate, amounting to Rupees 2,900, for

keeping open the mouths of Triplicane and Mylapore creeks along the South Beach from 1st January 1876 to 31st March 1877.

2. A sum of Rupees 403-8-0 was spent during the last official year, and I request that the balance, Rupees 2,496-8-0, may be allotted for the current year from any source at the disposal of Government, to enable me to adjust the expenditure which now appears in the Statement of Objectionable Items.

No. 240-A. From the same Officer, dated Fort St. George, 2nd February 1877, No. 5,644.

In submitting the estimate called for in paragraph 2 of your Memorandum,

1 Estimate.

No. 91-T, dated 26th January 1877, I have

the honor to explain that the work, "Keeping open the mouths of the Triplicane and Mylapore creeks along the South Beach," was commenced in January 1876, and the expenditure during the year 1875-76 amounted to Rupees 403-8-0.

2. The estimate now submitted includes this sum of Rupees 403-8-0, and the balance, Rupees 2,496-8-0, is proposed to be spent during the current official year. The creeks are cleared once in every 24 hours, so as to take advantage of one high tide per diem. The detail of men employed is 18 men and 18 boys at 4 and 2 Annas respectively. The estimate also provides for one Conicopillay at 10 Annas during the months of December 1876, January, February and March 1877, as certain alterations in the employment of Fort Lascars are under consideration which would necessitate the removal of the two Lascars who are at present employed in looking after the creeks in question.
