DEPARTMENT.

G.O. No.	<i>17/11/37</i>	Press ~~Mis~~
Dated	<i>12 / 11</i>	1877.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
2nd January 1877. No. 4.

Provision for the escape of surplus must be more economically made than in the manner proposed; the existing natural escapes should be extended about 180 feet. Three Rupees a foot should suffice for this, and at any rate that is the limit of outlay which the revenue of the tank will justify. A sum of Rupees 540 may accordingly be allowed. With these alterations the estimate may be sanctioned subject to the condition that the work authorized will render the tank fairly safe.

Range. He states that about 15000 Cattle
are now working in the roads alone, in one
Saluy in his Range; that the number
is daily increasing; that his other Saluys
are just as badly situated and that he
finds it almost impossible to have the
works satisfactorily carried out.

4. All the other Ranges are likewise
in urgent need of more hands and I
beg that early orders may be passed
on this matter.
