*Proceedings of the Madras Government, Public Works Department,
8th February 1877. No. 452.*

No. 262. Read the following letter from Major-General W. A. CROMMELIN, R.E., Deputy Secretary to the Government of India, Public Works Department, (Military Works,) to Major-General G. W. WALKER, R.E., Secretary to the Government of Madras, Public Works Department, dated Fort William, 26th January 1877, No. 64 M.W. :—

REFERRING to your letters quoted in the margin relating to the additions and alterations to the Barracks for European Troops at Poonamallee, I am directed to communicate the following observations :—

Plans and estimates returned.
No. 2,221, dated 22nd August 1876.
„ 3,149, „ 23rd November 1876.

2. It is noticed that the end wards are each 152 feet in length and are each intended for 40 men. It is considered that each of these should be subdivided by a cross wall into two wards. This measure is desirable both on constructive grounds and in order to obviate the objection of crowding too many men into one room in a dead corner.

Cook-rooms.—Two of these are provided for. It is considered that one would be ample; and, until a necessity for having a second is clearly established, I am to request that only one cook-room be given.

Family Quarters.—These do not seem to be satisfactorily designed arrangements; light, air and ventilation appear to be deficient, and I am to suggest that, if there are sites enough, detached single and double cottages should be provided for.

3. With reference to the foregoing remarks and subject to further orders as to the provision of funds, I am directed to intimate that the general project is approved by the Government of India.

COMMUNICATED to the Superintending Engineer, Chingleput, with reference to G.O., No. 2,220, dated 22nd August 1876.

2. The plans and estimates should be revised in accordance with the instructions of the Government of India, and resubmitted for final sanction of a definite amount of expenditure by the local Government.
