I shall be much obliged if you will place this amount at my disposal in your Treasury. I need about Rupees 60,000 or 70,000 before the 1st proximo to cover my expenses up to the end of February, and thereafter about Rupees 12,000 a month. Should you desire it I can give you from time to time more exact figures.

Since the irrigation is now almost stopped, I propose to send in only one supplementary demand up to the end of February, any further demand may be conveniently postponed till the

time for the final settlement of adjusted demand up to the end of June. This will supersede the proposed monthly demands, and will be, I think, the most convenient arrangement for the current year.
