FROM

THE CONTROLLER,
PUBLIC WORKS ACCOUNTS,

To

The Secretary to Government,
Public Works Department,FORT SAINT GEORGE, 27th December 1875.

Sir,

I have the honor to acknowledge
the receipt of the Proceedings of Government

Enclosures 7

Government Order No. 2420 of 2 nd December 1875	in the
do. " 3533 of 14 th "	arranging
do. " 858 of 15 th "	in the
do. " 902 of 22 nd "	general subject

of the Imperial Budget Estimate for the year 1876-77, and in reply to remarks as follows:

In the Imperial Budget Estimate for works, a copy of which was received with the Proceedings of Government under date December 13th 1875, I notice that the exact classification laid down by the Government of India had not been adhered to. The classification adopted is apparently that in force before the separation of the Irrigation works from those of the General Public Works in 1871. (For instance) I observe that the main land

W. 8235 A/1875

Dec. 22nd February 1876 L 503Imperial Budget estimate
of the PWD for 1876-77

Part I Section A

Abstract of the estimates
charges for Public Works
for the year from 1st Apr. 1876
to 31st March 1877.

Military is contrasted with Civil Buildings which is only one of the subheads under the mainhead Other Services.

3. In page 2, the expenditure under Establishment and Tools and Plant should be shown divided between Military and Other Services in order to exhibit the total expenditure under these ^{two} main divisions.

4. In the accompanying two Statements, the figures shown in the abstract in Part I, Sections A & B have been reclassified in accordance with existing orders, and for future guidance as to the classification of expenditure in the preparation of these Budgets, the Proceedings of Government under date September 8th 1875 may be referred to.

5. In accordance with the request expressed in the Proceedings of Government under date 2nd December 1875, I herewith enclose a statement of the expenditure on Establishments during the year 1876-77, estimated as completely as the records of this office will permit. The following few remarks will, I trust, be sufficient to explain the results arrived at.

6. The Statement provides for the sanctioned scale of establishment, no

deduction having been made for absentees, no additions for supernumerary officers in the various grades, this being the principle in which the Budget Estimates for Establishments have been got out in former years. The following Establishments are not provided for:

(a) The Madras Marine works, the Establishment of which is, I understand, to be debited direct to the Estimate for the works.

(b) The Revenue officer and his Establishment specially appointed to compile Statements of the Revenue receipts of the Irrigation works throughout the Presidency.

The Budget Estimate for Establishment for the current official year provides Rupees 25000 for Temporary and Survey Establishments, but the word and having unfortunately been omitted, the description reads Temporary Survey Establishments and the whole amount had been appropriated by Government for Survey, leaving no provision at all for Temporary Establishments proper. To avoid any further mistake I have shown in the Statement a separate provision for Survey and Temporary Establishments. - Separate

provision has also been made for the special Account Establishment required for the preparation of the Capital and Revenue Accounts of Irrigation works.
8. The Local Fund Sub-masters have been provided for as lower Subordinates, and the charge for the Principal Accounts along with a proportionate amount of travelling allowance has been transferred from Construction to Accounts.

9. The charges for petty Establishment have been separately entered in detail, and in order to give Government a definite idea of the Salaries assigned to the office employees, the clerks have been roughly divided into classes according to their salaries. I also submit with this a statement of the probable receipts that will be realized on account of the Public Works Department (Imperial) during the years 1896-97. Appendix A is under compilation and will be submitted when complete.

10. In conclusion, I remark in the draft Proceedings of Government under date December 4th 1895, a proposed Q.O. 3533 sentence, "The Controller's Estimate for Establishments and amounts to be..."

Submitted to Government with

x C. No. 7009

11th Dec 1895

The Secy
to the Govt
of the Punjab
Lahore

37 L
With reference to this sentence, implying that the duty of drawing up Estimates for Establishments rests with the Controller of Accounts, I must respectfully remark that in my letter No. 1244, dated 2nd November 1895 I have already pointed out to Government that the Controller, from want of information, is unable to draw out such Estimates correctly, and I have explained in full my reasons for considering that any estimate for Establishment drawn out in ignorance of the works which those Establishments are intended to carry out, cannot be otherwise than delusive and unsatisfactory. I further expressed my opinion that the amount of Establishment required to construct any given Engineering works was a professional Engineering question entirely foreign to the scope of an Auditor's duties.

11. For these reasons, I should be
sorry were Government to consider the
Statement of Establishment which
accompanies this letter to be an estimate
(in the proper sense of the word) of the
Establishment required for the effective
prosecution of public works in the
Madras Presidency during the year
1876-77.

12. I am strongly of opinion that
a proper estimate for Establishment
should bear some reference to the intended
outlay on works. At the present time,
when I am called upon to prepare an
estimate for the entire Establishment
throughout the Presidency, I am in
absolute ignorance both as to the
Irrigation works that are to be undertaken
next year and as to the amount of
money it is proposed to expend upon
them. I have no information as to the

amount of Provincial funds which are
to be expended on Public Works, nor do
I know the requirements of Local Fund
Boards as regards the construction of
their engineering works.

It is, I would respectfully submit,
impossible to prepare a proper estimate
of the total charges for Establishment,
based upon a knowledge of merely a
fractional part of the expenditure which
is to be incurred on works.

13. The object of the preparation of
Appendix A of the Budget is, I have
always understood, to secure a thorough
annual review of the Establishment in
the light of the works proposed to be
undertaken, and this object appears
imperfectly fulfilled if the Establishment
is decided upon before it is known
what works are to be carried out. Were
the Provincial grant for Public Works

to be reduced to a material extent the
reduction should, in my opinion, be
followed by a reduction wherever feasible
in the Public Works Establishment; and
holding strongly new to the effect, that
Public Works Establishments should, to a
certain extent, be elastic, increasing and
decreasing in relation to the work to be
done, I feel assured that Government
will excuse me from assenting, or even,
by putting forward the accompanying
Statement, as a proper & reliable estimate,
from appearing to assent to the doctrine
that Establishments are constant and
independent of works and that consequently
a correct estimate for Establishments can
be drawn out from the information
available in a Controller's office.

I have the honor to be
Your most ^{dev}oted servant
- Lowrey Gordon -

Controller of P.W. Accounts

Memorandum 41A

No 858

The Controller of P. W. Accounts is requested to be so good as to prepare the dispatch of Part IV of the Budget for 1876. 77 as well as the Estimate of the probable receipts that will be realized by and on account of the P. W. Department during 1876. 77 Supplement.

Copy of the Budget in Manuscript is herewith sent with a view of Appendix A being filled in.

TO
The Secretary to Government,
Public Works Department.
FORT SAINT GEORGE, 5 January, 1876

Sir,

I have the honor to acknowledge
the receipt of the Proceedings of Government No 353
under date the 14th December 1875 from which
I regret to observe that Government had not
thought it necessary in the representation made
in my letter No 176 W. dated December 27th
1875 to alter the wording of para 9 of their order
to the effect that the Controller had submitted an
Estimate for Establishment.

52354
noted
23 Dec 75

2. I will not here recapitulate
the arguments I have before advanced in my
two previous letters to show that the Controller in
ignorance of the works to be undertaken during
the year is not a proper person to draw up Es-
timates for Establishments, nor will I repeat
that the statement forwarded under cover of

my

my letter N^o 176 W. which appears to have been accepted unaltered, was not an Estimate in the proper sense of the word.

3. I respectfully ask for the decision of Government on the general question raised in my former letter N^o 124 W. dated 2nd November 1875. Ar. 4089 not disposed of

I have the honor to be,

Sir

Your most obedient servant.

Stonway-London

Controller of P.W. Accounts

Read the following:—

From The Controller of P.W. Accounts. } (St. C. No 176 W. of 27th Dec 1875)
Do Do Do } (St. C. No 181 W. of 5th Jan 1876)

According to the
errors of Classification
referred to in paras
2 and 3 of the letter from
the Controller of Public
Works Accounts No 176 W.
of 27th December 1875 it is
observed that the recent
orders which have been
issued on this subject
should secure stricter
conformity with rule
in the preparation of
future budgets. It is
remarked with reference
to the general question
raised by the Controller
as to responsibility for
the preparation of
financial ^{Estimates} ~~Estimates~~
and

and budget estimates
of establishments that in
this Presidency the duty
has hitherto devolved
on the Controller of Accounts
in the Public Works Dept.
and on the Accountant
General in the Civil
Department. In orga-
nizing the reestablishment
of the Public Works
Department therefore, no
provision was made
for the amount of work
which the acceptance
of this duty would
necessarily involve.
The separate branch of
the Office denominated
the Budget Department
consists of three Clerks
who also assist in the
general work of the
Office. And this branch
has for some time been
unequal to the constantly
increasing amount of
deferred work arising

in

in a great measure
from the stricter finan-
cial rules which the
Government of India
have of late years from
time to time laid down.
The local government
have in recent Pro-
ceedings expressed
their readiness to conform
to the Government of
India system so far
as may be practicable,
and in furtherance of
this intention and on
the representations of
the Controller have
directed that the regular
Estimates of Irrigation
works shall in future
be framed in the Office
of the Chief Engineer for
Irrigation instead of
in the Office of the
Controller as hitherto.
As a natural sequence
to this arrangement
it is now ordered that
all financial Estimates

Connected

(15-45.5)

connected with the
 General branch of the
 Department and the Budget
 Estimates of Establishments
 shall be prepared in the
 Office of the Chief Engineer
 and Secretary to Govern-
 ment in the Public Works
 Department. It is liable
 this to be done the Examiners
 of Public Works Accounts
 will arrange for the transfer
 of such known offices of
 the intelligent Accountants
 on Salaries ranging
 from Rs 80 to Rs 100 to
 supplement the Budget
 Department of the
 Public Works Secretary.
 The transfer will be
 made immediately
 and the sanction of the
 Government of India
 applied for in due course.

GO-581

The ⁸²³⁵ ~~Examiner~~
 of Public Works Accounts
 is directed to
 the preparation of
 the Budget for the
 Public Works Department
 for the year 1906-07
 to be submitted to the
 Government of India
 for their consideration
 and sanction. The
 Budget should be
 prepared in the
 Office of the Chief
 Engineer and Secretary
 to Government in the
 Public Works Department.
 It is liable this to be
 done the Examiners
 of Public Works Accounts
 will arrange for the
 transfer of such known
 offices of the intelligent
 Accountants on Salaries
 ranging from Rs 80 to
 Rs 100 to supplement
 the Budget Department
 of the Public Works
 Secretary.

I do not think any
 more than the
 recording order is
 necessary. The con-
 tinuation in the
 Department of the
 Public Works Secretary
 will be made for the
 year 1906-07 and the
 time has been con-
 sidered for the
 transfer of the
