MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

G.O. No. 589 (W)	Press ~~Mis.~~
Dated 22-2-	1877.

Not to be folded or roughly handled

Read the following papers :—

No. 518. From R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Secretary to Government, Public Works Department, Roads and Buildings Branch, dated Chepauk, 23rd January 1877, No. 786.

I HAVE the honor to acknowledge the receipt of your G.O., No. 149, dated 19th December, on the subject of the cost of the Royapettah works, and in reply to state that there will be no excess on the sanctioned estimates for the palace. A further sum of Rupees 3,808 will, however, be required over and above the estimates already sanctioned for *additional* works. To cover this sum I beg to submit for sanction the following detailed estimates :—

1. Decorating and finishing the Durbar Hall and main Staircases	...	Rs. 2,747
2. Revised detailed estimate, Nowbut Khana		7,690
Deduct approximate estimate sanctioned in G.O., No. 160, dated 20th November 1874		6,629
		<u>1,061</u>
Total	...	<u>3,808</u>

2. The first of these works it was almost impossible to estimate for. The decorations were undertaken with the sanction and approval of the Members of Government. The second work, viz., the Nowbut Khana, was sanctioned on an *approximate* estimate; that submitted now is in detail. The addition of the guard-rooms and other alterations rendered the building so different, that I found it necessary still further to enlarge it in order to create in the observer that first impression of magnificence which is considered so essential in the gateways of the East. On comparing the two plans it will be observed that the excess of the detailed estimate over the approximate estimate is due entirely to enlargements and to additions.

3. If the Government are pleased to sanction these two estimates it will be unnecessary to make any application to cover the cost of the extra works alluded to in my letters No. 625, dated 5th September 1876, and No. 671, dated 30th October 1876.

No. 518-A. From Captain L. CONWAY-GORDON, R.E., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, Roads and Buildings Branch, dated Fort St. George, 27th January 1877, No. 392 W.

I HAVE the honor to report, for the information of Government, that at the request of the Accountant-General, Madras, this Office has, in accordance with the Proceedings of Government, in the Political Department, No. 796, dated the 4th December 1876, instructed the Consulting Architect to Government to transfer to "Provincial" such outlay as has been incurred on the work noted in the margin in excess of the grant.

Converting the old Royapettah Police Court into a residence for His Highness the Prince of Arcot.

2. The excess outlay up to the end of November 1876, inclusive of the sum of Rupees 3,240-10-4 mentioned in the above Proceedings, amounts to Rupees 13,271-6-9, and for this amount it is necessary that an appropriation of funds should now be made from the Provincial Public Works grant.

*Proceedings of the Madras Government, Public Works Department,
22nd February 1877. No. 589.*

3. A further appropriation will probably be required on the receipt of the Consulting Architect's report called for in G.O., No. 149, of the 19th December 1876.

No. 518-B. From R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Secretary to Government, Public Works Department, Roads and Buildings Branch, dated Chepauk, 8th February 1877, No. 813.

WITH reference to your office memorandum No. 243, and in continuation of my letter No. 786, dated the 23rd ultimo, I have the honor to state that the following estimates have been sanctioned in connection with the Royapettah works:—

With reference to the above figures I beg to explain that the sums shown as allotments do not agree with those shown by the Accountant-General in his letter No. 439, dated 24th October 1876. See Proceedings of Government, Public Works Department, No. 149, dated 19th December 1876. I think it probable that adjustments have been made either in the Accountant-General's Office or the Examiner's Office.

THE Consulting Architect submits supplemental estimates amounting to Rupees 3,808 for decorating and finishing the Durbar hall, &c., and for completion of the Nowbut Khana in connection with the Royapettah palace. This amount added to the sanctions already given will raise the cost of the work to Rupees 1,49,696 as shown below.

2. The net grant for the work as given in the Accountant-General's first letter recorded with G.O., No. 149, dated 19th December 1876, is Rupees 1,23,832, being Rupees 25,864 less than the sanctioned estimates. Under orders in the Financial Department all expenditure in excess of the grants specially made available for the work must be met from Provincial Funds. The sum of Rupees 25,864 will, therefore, have to be debited to Provincial; but the Public Works Department are not at present in a position to assign funds to this extent, and the matter will have to lie over till later in the year.

3. This sanction has been registered as Provincial No. 242—W. of 1876-77.

 will be no excess on the sanctioned estimates
 for the Palace, but that a further sum
 of Rs 3808 will be required over and above the
 estimates already sanctioned for additional
 works. This statement is not understood, and
 should be clearly elucidated by figures in
 the following form.

Sir,

I have the honor to acknowledge the receipt
of your G. O. No. 149 dated 19 December on the subject
of the Cost of the Rayapettah works and in reply
to state that there will be no excess on the sanctioned
estimates for the Palace. A further sum of Rupees
3808 will however be required over and above the
estimates already sanctioned for additional works.
To cover this sum I beg to submit for sanction the
following detailed estimates.

The first of these works it was almost
impossible to estimate for. The decorations

were undertaken with the sanction and approval of the Members of Government. The second work viz; the howbukkhana, was sanctioned on an approximate estimate, that submitted now is in detail. The addition of the guard rooms and other alterations rendered the building so different, that I found it necessary still further to enlarge it in order to create in the observer that first impression of magnificence which is considered so essential in the Gateways of the East. On comparing the two plans it will be observed that the excess of the detailed estimate over the approximate estimate is due entirely to enlargements and to additions.

If the Government are pleased to sanction these two estimates it will be unnecessary to make any application to cover the cost of the extra works alluded to in my letters Nos 625 dated 5 September 1876 and No 671 d/ 30 October 1876
