(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

16th February 1877.

To the Secretary to Government, Public Works Department.

No. 533-A. From W. A. GOODCHAP, Esq., District Engineer, Kurnool, to the Chief Engineer for Irrigation, Public Works Department—through the Examiner of Public Works Accounts—dated Vemulakota, 28th December 1876, No. 57.

Additional allotment.

In obedience to the instructions conveyed in paragraph 2 of the Proceedings of Government, and Order thereon, No. 2,832, dated the 24th October last, I have the honor to forward a revised statement, showing the amount spent on Irrigation Repairs up to 30th November 1876, and the balance required to place the works in a safe condition in the current official year.

It will be seen that out of 16,000 Rupees (exclusive of the amount required for Cumbum Tank channels, applied for in this Office No. 38,) embodied in the Government Order above recorded, 9,000 Rupees only is now required; this decrease is owing to the failure of rain this year. I respectfully solicit early orders on the subject, as the Executive Officer, Nandial Division, reports that the progress of several works is held in abeyance for want of additional funds, in accordance with G.O., No. 2,608, dated 27th September 1876, prohibiting expenditure without a previous sanction of an allotment.

A further supplemental allotment of Rupees 2,850 is required under " Ordinary Agricultural " " Original Works," as the Divisional Officer, Kurnool, reports that the masonry works of the following tanks should, if possible, be completed before the next wet season, for which a separate statement is herewith submitted :—

1. Velgode Ramasamudram tank.
2. „ Idula tank.
3. Veldurti tank.
