*Proceedings of the Madras Government, Public Works Department,
23rd February 1877. No. 617.*

No. 573. Read the following Proceedings of the Board of Revenue, dated 15th February 1877, No. 627:—

Proceedings of the Madras Government in the Public Works Department, dated 17th October 1876, No. 2,776.

ABSTRACT.—*Junction Canal to unite the Cocanada and Coringa Canals and the Penuguduru Salt-pans with them by a Lock into the Cholangy River.*—Passing orders on the estimate for a—.

Read also Proceedings of the Madras Government in the Revenue Department, dated 11th November 1876, No. 2,663, passed on the foregoing order of the Public Works Department.

THE Board of Revenue will report on the point referred to in paragraph 1, viz., the probable effects on the salt-revenue of that part of the scheme which will bring the salt-pans into direct communication with the Cocanada canal.

(True Extract.)

(Signed) H. B. GRIGG,
Actg. Under Secy. to Govt.

THE Government Order read above will be communicated to the Collector and President of the Local Fund Boards, Godavery.

2. The Collector will report his opinion and, as far as possible, support it by figures; how far the construction of the canal would repay the outlay which it is proposed to treat as Imperial.

3. The opinion of the Local Fund Board should be obtained on the proposal that Local Funds should contribute. The Road Fund of the Circle can be applied to such communications and there is a large balance. According to the Regular Estimate submitted to Government with Board's Proceedings, dated 14th December 1876, No. 3,181, there will be a balance of Rupees 14,584 on the 1st April 1877, and of Rupees 280 unappropriated and available in 1877-78. The importance of the canal as a link in the communications of the district will no doubt be recognized by the Local Fund Board.

4. There is an allotment of Rupees 40,000 from Canal and Ferry Funds for a section of the canal in the current year's budget, and including this sum Rupees 58,721 are available in the current year. The balance on the 30th September was Rupees 85,744.

5. It appears probable therefore that the Local Funds and Canal and Ferry Funds could make up out of the sum required of them as much as will be wanted in 1877-78, if not the whole amount; but the consent of the Local Fund Board must be obtained.
