*Proceedings of the Madras Government, Public Works Department,
23rd February 1877. No. 629.*

No. 596. Read the following endorsement of the Consulting Engineer for Railways, dated Madras, 15th February 1877, No. 102 :—

From R. B. ELWIN, Esq., Agent and Manager of the Madras Railway Company, to Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, dated Madras, 14th February 1877, No. 288.

I HAVE the honor to inform you that the Consulting Physician having certified that the state of health of Mr. F. F. Millett, 3rd-class Assistant Engineer, was such as to incapacitate him for further active service in India, I have provided him with a passage to England under the terms of his agreement, and that he left Madras in the Steamer *Hydaspes* which sailed on the 12th instant.

2. I request that you will be so good as to communicate the authority of Government to my applying to the Board for a 3rd-class Assistant Engineer to take the place of Mr. Millett.

3. The usual form of application is enclosed.

To the Consulting Engineer for Railways.

Extract from a letter No. 1,214 from the Agent and Manager of the Madras Railway Company to the Board of Directors, London.

PARA. 92. Letter No. 113 of the 31st ultimo, in which he stated that Mr. Millett had written to him to say that he was ill and asked leave to come to Madras and that he was prepared under the circumstances to recommend that the month's privilege leave Mr. Millett had earned should be granted to him, but that he had received a letter from the Consulting Physician, which he enclosed, in which Doctor Elder expresses the opinion that a month's leave is not sufficient to enable Mr. Millett to recruit his health and that he should leave India.

93. Mr. Robinson asked that a passage to England might be provided for Mr. Millett and, as it is probable that he will never again be fit for duty in the tropics, requested that I would take steps to fill the vacancy.

94. The Chief Engineer adds, "apart from Mr. Millett's state of health I cannot recommend that he should be again permitted to return to India. He has not for some time been quite as clear headed as an Engineer on permanent-way should be."

Proceedings of the Madras Government, Public Works Department,
23rd February 1877. No. 629.

95. Upon the receipt of this letter I wrote to Doctor Elder and asked whether, as far as he was able to judge of Mr. Millett's case at present, he would in his (Dr. Elder's) opinion ever be fit for further active service in India. Dr. Elder's reply, a copy of which is enclosed, is to the effect that Mr. Millett will never be fit for active service for any length of time in the plains, and goes on to say "constant exposure to the sun in this country is very much against him. He might be fit for office work after a change to the Hills or a sea-voyage; but, according to the best of my judgment, he is quite incapacitated for further duty on the permanent-way."

96. Under these circumstances I have engaged a passage to Southampton for Mr. Millett by the P. and O. Steamer advertised to leave Madras on the 12th instant, and, as soon as I am in possession of the necessary authority, I propose to ask the Board to send out another Engineer to fill the vacancy thus caused.
