*Proceedings of the Madras Government, Public Works Department,
23rd February 1877. No. 631.*

No. 600. Read the following letter from Colonel H. DRUMMOND, R.E., Deputy Secretary to the Government of India, Public Works Department, (Railway,) to the Joint Secretary to the Government of Madras, Public Works Department, (Railway Branch) dated Fort William, 6th February 1877, No. 337 R.

IN acknowledging the receipt of your docket No. 8-A, dated the 5th January 1877, forwarding copy of Proceedings on the report regarding the collision at Amboor, Madras Railway, I am directed to say that the effect of the time-table system as conducing to the liability to such and similar accidents should be thoroughly examined in the full report promised by the Government of Madras in its telegram dated the 19th instant.

2. I am at the same time to draw the attention of His Grace the Governor in Council to the letter from the Government of India, No. 167-R, dated 24th January 1877, prescribing the adoption of either the "line clear" or the "absolute block" system for the working of the Railways in Madras.

3. If there is needed anything further to prove the absolute necessity of adopting this line clear system, at a time too of special heavy traffic, this recent accident, as deplorable as it would have been avoidable, is sufficient evidence; and the Government of India trust that no further delay will be permitted in introducing this system throughout the Railways in the Madras Presidency.
