No. 26. Read the following letter from Major J. O. HASTED, R.E., Superintending Engineer, Kistna, to the Secretary to Government, Public Works Department, Roads and Buildings, Branch dated Masulipatam, 16th February 1877, No. 155.

I HAVE the honor to forward herewith an application from the Roman Catholic Priest, under whose directions a church is now being constructed at Bezwada, for permission to take up a strip of ground from the compound of the Telegraph Signaller's quarters, in order to form an approach to the church.

2. The Telegraph Signaller's quarters were originally the Soldiers' rest houses, and were made over to the Telegraph Department in 1866.
Vide G.O., No. 2,319, of 21st July 1866.

3. I have consulted the Assistant Superintendent of Telegraphs, Bezwada Sub-division, and he informs me that he has no objection to the space required for the road-way being given up. I would therefore recommend that the ground required should be made over to the Roman Catholic Priest on condition that he constructs a compound wall on the west of the road-way, to correspond with the present wall surrounding the Telegraph Signaller's compound.

Berzwarrah

Dated Trimulgherry 29th January 1877

From Rev. P. Carlino. C. Chaplain

Sir

I respectfully beg to solicit your kind consideration in the following matter which I believe can be disposed of by you as all Govt. Buildings must be under your control.

The new Catholic Church which is being erected at Berzwarrah has no respectable outlet or inlet from any main road and if a longitudinal space of about 9 feet adjacent to the wall of Mohammedan grave yard bordering on compound of Signallers quarters was allowed to be enclosed as a road the most desired object would be obtained and a decent wall would be raised at our expense. I therefore most earnestly beg this favor from you and for which the Catholics will ever feel extremely grateful.

Kindly requesting a reply at your earliest convenience.

I have the honor to be

Sir

Your most obedient servant.
