Extract from the Dy. Commissary and
General's report on the Wellington Com-
missariat, dated 10 November 1876.

IX. Colonel Heath has recom-
mended that certain alterations and
additions be made to the Slaughter-
House and the sooner they are
carried out the better in my opinion,
for, for want of them, the sheep have now
to be slaughtered in a separate place
from the bullocks and their carcasses
are hung up in the Contractor's own
house to which the Station Butcher
cannot of course have that access which
he would have to a public building.

The Quarter Master General,
Fort Saint George

Sir,

I have the honor to return the plan received with your letter, dated 27 July 1877 and to state, that it is desirable separate accommodation for the slaughter of bullocks and sheep should be provided at Wellington.

2. At present the sheep are killed in the open and the meat is hung in the Contractor's house, a very objectionable arrangement, but one which for the present is unavoidable, as the Contractor declines to kill or keep his mutton where cattle are killed and beef is hung - vide letter from Executive Commisariat Office and Extract from the Deputy Commissary General's report on Wellington.

3. In returning the plan of the proposed Slaughter house at Wellington this objection was pointed out in this Office Letter recorded in the Order of Government, 20 August 1867, No. 3109.

4. It would be most difficult to obtain information such as is required in the 4th para of your letter of a native to be relied upon, and if a clause were entered in future deeds making the slaughter of sheep and Bullocks in the same shed compulsory, it would probably give rise to difficulties, and as hitherto this

SIR,

I have the honor, by order, to forward a letter from the Executive Commissariat Officer at Wellington with a plan and estimate (Rs. 1000) for enlarging the Slaughter house at that Station, and to solicit the favor of your opinion on the necessity for the work.

2. In the Standard plan for Slaughter houses, one slaughter shed and one meat store are provided; but it is stated that a separate enclosure and shed are required for the mutton as the mutton butchers object to one enclosure.

3. Similar applications have been received from other Stations on the plea that without a separate enclosure and shed
