Sir,

Adverting to G.O. No. 284 W of 22nd June 1877,
I have the honor to inform you that of the
current year's grant for Civil Repairs, Prov^d,
there is only a very small balance of about
Rs 1500 now available at my disposal exclu-
sive of the grants for repairs to Government
House and Police Buildings. I therefore
beg that the sum of Rs 12,500 applied for
in my No. 1500 of 12 June 1877 may be
sanctioned at an early date - so that I
may appropriate the sum of Rs 1525 for
repairing Vepery Female Hospital, as
directed in the order of Government.

Sir,

With reference to your No 1205
dated 25th August 1877 enclosing Deputy Chief
Engineer's Memorandum No 2369 dated 21st
August 1877 I have the honor most respectfully
to request that the following circumstances
may be taken into the kind consideration
of Government before a final decision to
curtail my allotments to what would be
sufficient for opening the new Pulney Ghaut
to rideable bridle path throughout -

2. After the experience of last September
(when not a man in my Camp escaped severe
fever & total prostration) I would not like
to risk a Camp below the 12th rule of the new
Ghaut until after the North East monsoon
has fairly broken. I would also remind

you of the effects of the break up of work,
& the scarcity of labour that I complained
of last January.

3. Whatever the effect of "The Famine"
elsewhere, its effect here has been to supply
my works with the pick of the able bodied
labourers of the plains, even as far as South
Arcot.

4. Men of small properties, who in
ordinary years would be independent, & only
work on highly remunerative contracts are
now only too glad to work with me on daily
pay. I work with them "shoulder to shoulder,"
I pay every man with my own hand, I
believe that I have attracted a superior
class of men who give me willing service
in return & that the cost of their work
is less than half what it would be in
ordinary years.

5. As an instance of the above I may
mention that I am boring rock hard & soft
at an average of 6 inches a yard of depth
bored (Rupee 1 per yard is I believe the
Nilgherry rate) that my revetment & drain
works cost me about 3000 a yard, & that

I am now cutting granite clubs for large
drains at rates varying from Rs 1 for 5 foot
covering stones to Rs. 2 from 7 to 8 feet.

6. I have just completed the drains
of the first four miles, now fit for cart
traffic, and the bridges & drains of almost
the heaviest part of the whole line 5th, 6th &
7th mile, through "Tiger Sholah," are now open,
& in all stages of advancement of Waterfall
Bridge the 3 centre piers (5 are required) are
nearly completed.

7. It is not however the favorable
opportunity of carrying on the work, or
the loss, that would occur from stopping
works in progress by confining me entirely
to "rideable bridle path," that I would urge
upon the kind consideration of Government
but that my work itself is, of itself, a
valuable "Famine relief," preserving in
health, strength, & independence, over
200 able bodied men: for none but the
able bodied can face the ascent & climate
of the hills - and that when the Lower Pulney
are again healthy & work can be commenced
from below. I shall be (humanly speaking)

able to find work for and feed any
number of people.

8. In conclusion I have the honor
most respectfully to urge that my present
allotment of Rupees 30000 for current
year be not reduced below Rupees 20000.
and that for the next 3 1/2 months I be
not too strictly confined to "ridable bridge
path," as otherwise I must at once
break up my Camps & reduce numbers.
