The Dist. Insp.
Nelson

14 March 1877

Messrs de Grouville
& Brooks Executive Engineer
3rd Class will join East
Coast Canal from Hith
Lieut. Rawson to go to
Dowlaiswherance as soon
as relieved. Mr. Hutchings
to join the Madam District

(14/1) J. Millies Lt. Col. R.R.
Ch. Insp. R.W.E.

Memorandum 56

In expectation that many of the
Kistna Delta Completion ^{works} ~~works~~
work started to employ ^{former}
labour two Executive Engineers
were visited to the Delta for
employment but there appears
to be but little probability now
of any considerable demand for
such work arising there. The
additional labour employed is
but small & the labour situation
in the Delta generally is not greater
than the regular establishment
can manage.

The Chief Engineer would recommend
therefore the transfer elsewhere
of Messrs E. DeBonsilliers & F. G.
Brooks both of the ^{rank} ~~rank~~ of the 3rd
Grade.

The nearest large work on which they
can be employed is the East Coast

Canals, and by posting them there
to the service of 2 of the Officers there
employment might be made available
for the regular work of the Department
Officers are required for

1. The Eastern Delta Survey
2. The Orindigul Range. Madras

For the former Lt. Colonel Campbell
is now in charge - He applied for
furlough from the
it was supposed that the stopping of
the grant of ordinary furlough during
the furlough would lead to the
postponement of his leave. Lt. Major
Beatty has informed that he is
that Lt. Campbell is about to submit
his application by a medical certifi-
cate, and the Civil Surgeon has
informed Major Beatty that he is
prepared to grant an emergency
Certificate. The posting of another
Officer to the Delta means there-
fore to be made with as little delay
as possible.

Shows me on what
banks of the Canal
Lie the buildings
Burlton & Russell
are & in what
Districts they were
employed before
they went to Canada
Superintendent of

But after
circulating papers
about the canal
have
papers submitted
the inspection has
been made. The
12/3

Stated that he would be glad
of Lt. Major Beatty less supported that if
Lt. Col. Rawson's services should
be made available, and as a temporary
arrangement ~~there is~~ until
Mr. Walsh can rejoin the Command
this would be a good arrangement
as earlier suggested.

For the Orindigul Range a young
Assistant Engineer can also be
made available & Mr.
Kearney from the Coast Survey
is recommended. The British
Engineer mentioned has mentioned
specifically that Mr. Rawson's
mental state is such that
Dr. Samuels considers he must
leave at once instead of waiting
until the 1st April when his
subsidiary leave will in the
ordinary course commence
there is therefore no time to be lost
in posting another Officer.

William L. G. Russell
 1111 11th St. N. W.
 Memorandum. Imp. 11th St.
 11th St.

In expectation that many of the Krishna Delta Completion works would be started to employ Tamilar labor, two incentive engineers were posted to the Delta for employment, but there appears to be but little probability, now of any considerable demand for such work arising there. The additional labor employed is but small and the expenditure in the Delta generally is not greater than the regular establishment can manage.

The Chief Engineer would
recommend therefore the
transfer elsewhere of

Major R. DelGonzelliers
and F. B. Brooks both
Executive Engineers of the 3rd grade.

The nearest large work on which they could be employed is the East Coast Canal and by posting them there to the services of 2 of the Officers there employed might be made available for the regular work of the Department.

Officers are required for

1. The Eastern Delta Squadron
2. The Divisadero Range Squadron

of the Grand Detachment
Campbell is now in charge
He applied in January last
for furlough from the

but it was supposed
that the stoppage of the
grant of ordinary burslough
during the famine would
have led to the postponement
of his leave. Major Beatty

* The papers have been
taken round to the
Adjutant's General from the
side post as it would appear
that I have been in the
till the 8th of April 1873.

has reported demi-officially
that Lt Campbell is about
to support his application
by a Medical Certificate, and
the Civil Surgeon has in-
formed Major Beatty that
he is prepared to grant
an emergent certificate.
The posting of another Officer
for that Delta requires there-
fore to be made with as
little delay as possible.

Major Reath, has stated that he will be glad if Lt C. C. Rawson's services can be made available, and as a temporary arrangement until Mr. Hatch can reform the Godavery, this would be as good an arrangement as can be suggested.

For the Dinidigh Range
a young Assistant Engineer
can alone be made avail-
able and Mr. Hutchings

transfer from the Coast
Canal is recommended.
The District Engineer has
mentioned desirably
that Mr. Lawford's mental
state is such that Dr
Lamock considers he must
leave at once instead of
waiting until the 1st April
when his subsidiary leave
will, in the ordinary course,
commence, there is then
give no time to be lost
in posting another Officer.
