Dated <u>15</u> - <u>3</u> - 18 <u>77</u>	

Not to be folded or roughly handled

No. 365. Read the following endorsement of the Chief Secretary to Government, dated Fort St. George; 13th March 1877, No. 609:—

From Lieutenant-Colonel T. E. TENNANT, Inspector-General of Jails, to the Chief Secretary to Government, dated Madras, 12th March 1877, No. 82.

IN Judicial Order, No. 1,723, of the 28th October 1873, new quarters were sanctioned for three European Warders in lieu of those destroyed to make way for the Carnatic Railway terminus at Madras, and orders were given that the cost for erecting new quarters should be borne by the Railway Department.

2. The District Engineer accordingly prepared a plan and estimate, amounting to Rupees (8,900) eight thousand nine hundred for constructing new quarters with out-houses for the three Warders.

Public Works Department, 4th May 1874,
No. 1,175.

3. The construction of new quarters was, however, not commenced, as owing to the Carnatic Railway Company being undecided as to the limits of the land required for their terminal station; the site for the Warders' houses could not be selected until the Railway Company had definitely settled their boundary. Further, when quarters for Warders are built, accommodation should be provided for the additional Warders sanctioned in G.O., No. 190, of the 5th February 1874, Judicial Department.

4. The Superintendent of Prisons for the Town of Madras has urged on several occasions the importance of having the Jailor's and Deputy Jailor's quarters outside the Penitentiary, and has suggested that the sum sanctioned for constructing the Warders' houses should be devoted to building quarters for the Jailor and Deputy Jailor outside the prison. Both these officers at present live inside the jail. There are grave objections to such an arrangement. The presence of the families and children of these officials in the midst of a criminal population is obviously objectionable. Moreover their domestic servants must be constantly passing in and out of the jail, and it is feared often serve as means of communication between prisoners and their friends and confederates outside the jail.

5. There is sufficient land between the Penitentiary and St. Mary's bridge on which houses for the Jailor and Deputy Jailor could be built. The District Engineer has furnished an approximate estimate* for these buildings. Should Government approve of the present suggestion, I have the honor to request that instructions may be issued in the Public Works Department for preparing the necessary plans and estimates and that the sum of Rupees 8,900 may be transferred and allotted for this work.

* Approximate Estimate for Jailor's quarters	...	...	...	Rs.	5,700
Approximate Estimate for Deputy Jailor's quarters	...	...	...		3,000
Total	...	...	...		8,700

APPROVED and transferred to the Public Works Department, in view to the preparation of plans and estimates, including a site sketch, for sanction. Funds have to be provided by transfer from the Railway Department.

(Signed) W. HUDLESTON,
Chief Secretary.
