GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

2nd March 1878, No. 1,062 W.

General.
Account.

Read the following paper:—

No. 25. From Colonel P. P. L. O'CONNELL, R.E., Superintending Engineer, Chingleput, to the Chief Engineer, Public Works Department, dated St. Thomas' Mount, 25th February 1878, No. 809.

I HAVE the honor to report that the Officer in charge of No. 1 Range has brought to my notice a claim preferred by Streenevasa Mudaly, the original contractor for the masonry work of the Cortelliar bridge, measurement of granite stones.

One Bill.
on account of the value of certain granite stones quarried by him for the purpose of supplying bond-stones for the piers of the bridge. At the suggestion of the Chief Engineer, (*vide* paragraph 2 of his No. 1,126, dated 27th July 1876, in G.O., No. 1,642, of 9th September 1876,) made apparently after the stones had been quarried, these have not been used in the work. As the contractor however provided the stones in fulfilment of orders received by him, he appears to be entitled to payment for the same. There are no works at present in progress on which the stones can be utilized. The Range Officer suggests therefore that they be brought into the accounts as stock and used and charged off on works that may hereafter be constructed. As there appears to be no course other than the above, by which the adjustment of the claim can be made, I have the honor to recommend the Range Officer's suggestion and to request that the necessary sanction may be accorded to the payment of the enclosed bill submitted by him, amounting to Rupees 1,614, on account of the stone in question.

No. 26. ORDER THEREON, 2nd March 1878, No. 1,062 W.
THE District Engineer's proposals are approved.

From
THE SUPERINTENDING ENGINEER,
Chingleput.

To
The Chief Engineer,
Public Works Department.

SIR,

I have the honor to report that
the officer in charge of No. 1 Range has
brought to my notice a claim for
measurement of granite stones
- quarried by Sreenivasa Mudali,
the original contractor for the
masonry work of the Corbair
Bridge, on account of the value
of certain granite stones quarried
by him for the purpose of supply-
ing Road stones for the piers of the
Bridge. At the suggestion of the
Chief Engineer (vide para 2 of his No.
1126 dated 27th July 1876 in G.O. No.
1642 of 9th September 1876) made
apparently after the stones
had been quarried, these have
not been used in the work.
As the Contractor however pro-
-vided

aided the stones in fulfilment of orders received by him, he appears to be entitled to payment for the same. There are no works at present in progress on which the stones can be utilized.

The Range officer suggests therefore that they be brought into the accounts as stock and used, and charged off on works that may hereafter be constructed. As there appears to be no course other than the above, by which the adjustment of the claim can be made I have the honor to recommend the Range officer's suggestions and to request that the necessary sanction may be accorded to the payment of the enclosed bill submitted by him amounting to Rs. 1614 on account of the stone in question.

I have the honor to be
Sir

Your most obedient servant
