No. 406 dated 23rd Feb. 1878.

FOR ORDERS.

In submitting Captain
Brockman's application for
leave the Chief Engineer
notes for information of
Govt. that Captain Brockman
applied for leave in January
1877; his application was
returned to him with direction
to submit it a month later,
before the expiration of which
time the Government order
prohibiting applications for
leave except on Medical

Circumstances for
Pending do not
justify leave at

It must be
postponed. As I have
not been in the office
before leave

Certificate being submitted was issued. Though the present crippled condition of the Public Works Dept. it is extremely inconvenient to part with the services of Captain Brockman, the Chief Engineer feels he cannot fairly stand in the way of the leave applied for being granted. He remarks, however, if the reorganization of the Department is really likely to take place immediately it is extremely desirable that Captain Brockman shall not be permitted to leave Tanjore until such has been carried out, after which his services can be spared without difficulty. Tanjore will make the fourth

District likely to be left without a District Engineer shortly. These District Engineers cannot be replaced except at the expense of reducing the number and efficiency of the already weak and overtaxed Executive Establishment at a time too when its strength is being most heavily tried.
