GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

11th March 1878, No. 1,252 W.

Buildings and Roads.

Civil Works.

Read the following paper :—

No. 143. From J. W. RUNDALL, Esq., District Engineer, Bellary, to the Chief Engineer, Buildings and Roads, dated Camp at Anantapore, 11th February 1878, No. 5,106.

One Plan.
,, Estimate.
,, Specification.

I HAVE the honor to submit for the sanction of Government an estimate amounting to Rupees 202 with accompaniments as per margin, for improving and providing a gate for the Cemetery at Anantapore.

2. The estimate has been prepared on the requisition of the Collector, who has countersigned the papers in token of approval.

3. Funds will be provided from the provision in the Budget for the next official year under Civil Buildings, Repair.

No. 144. ORDER THEREON, 11th March 1878, No. 1,252 W.

THE estimate of Rupees 202, for improving the Cemetery at Anantapore in the Bellary District and providing a gate, is sanctioned.

2. The work will be carried out on the revised plan prepared in the Chief Engineer's Office.

3. The District Engineer will provide funds from the grant for Minor New Works, Provincial, at his disposal in 1878-79.

4. This sanction has been registered as Provincial No. 297 B of 1877-78.

Specification Report to accompany the estimate for repairing the Christian Cemetery at Anantapore

Estimate Rupees ~~205-0-0~~ 20½

The Cemetery is situated on the 3rd furlong of the 130th mile on the road from Gooty to Bangalore and about half a mile to the South of Anantapore.

The brick in mud wall enclosing the Cemetery is rapidly falling into decay in consequence of the bad quality of the bricks used in its construction. The gate has been entirely destroyed by white ants & two of the tombs require repair.

To prevent further deterioration of the wall, it is proposed to protect the brick work by covering it with two coats of lime plaster. Before laying on the plaster the old mud in the joints will be raked out to a depth of one inch and the wall will then be swept clean and afterwards watered. The new lime plaster will be ~~found~~ forced into the joints so as to obtain firm holding. The plaster will be brought to an uniform level and will be well rubbed down with a bricklayer float.

After plastering, the wall will be bluewashed and the coping whitewashed

The present brick in land gate pillars will be taken down, as it is through them that white ants make their way to the gate, and stone brick in chunam pillars will be built up in their place.

A Teakwood gate with fastening &c. Complete will be provided. The gate will be painted with two coats of boiled tar to protect it from the attacks of white ants.

On Completion of the work all rubbish is to be removed and the Cemetery left clean.
