General.
Establishment.

No. 324. Endorsement of the District Engineer, Presidency, dated Fort St. George,
8th March 1878, No. 6,918.

WITH reference to your No. 6,802 of the 4th instant, calling for further full explanation regarding the necessity for the retention of the establishment detailed in my No. 2,022 of 31st January last, I have the honor to state that unless the services of the two Overseers are retained I shall not be able to guarantee the rapid completion of the three important works now in hand, viz. :—

the 2nd Syphon,
the Yellapathamatha Covil Road Bridge, and
the Aqueduct;

and as the Government have already pronounced the progress made as unsatisfactory, I fear that matters will not be mended by the withdrawal of the assistance of the two native subordinates, who alone can urge on the work-people.

2. To complete the office accounts and to draw up the contract bills, &c., it is essential that the services of the few Office Clerks should be retained. . . . Owing to the paucity of Clerks to undertake the clerical work in this office, the compiling of the accounts has fallen sadly in arrears, and it will be necessary, I am of opinion, to strengthen their number, rather than to reduce it, to close the accounts by the end of April, or even that of May.

SUBMITTED to the Chief Engineer, Public Works Department, with reference to
G.O., No. 1,069 W, dated 2nd March 1878.

(Signed) ROSS THOMPSON, Major, R.E.,
