PUBLIC WORKS DEPARTMENT.

9th April 1878, No. 1,760 W.

Buildings and Roads.
Military Works.

Read the following paper:—

No. 89. Endorsement of the Secretary to Government, Military Department, dated Fort St. George, 4th April 1878, No. 1,740.

From Brigadier-General H. O'CONNELL, Quartermaster-General, to Colonel J. MICHAEL, c.s.i., Secretary to Government, Military Department, dated Fort St. George, 3rd April 1878, No. 2,413.

I HAVE the honor, by order, to forward letter from the Officer Commanding Mysore Division, No. 150, dated 22nd ultimo, asking for an early allotment of funds for alterations to the Rifle Range at Bangalore.

2. The plan and estimate (Rupees 2,500) were approved by Government, (Proceedings, Madras Government, 21st August 1877, No. 4,758,) and sanctioned in the Public Works Department, (25th September 1877, No. 779 W).

3. As the work is much required, it is hoped that Government in the Public Works Department will be able to allot funds for it at an early date.

From Lieutenant-General C. ELMHIRST, Commanding Mysore Division, to the Quartermaster-General, dated Bangalore, 22nd March 1878, No. 150.

REFERRING to the Government Orders as per margin, I have the honor to request you will move His Excellency the Commander-in-Chief to make an application to Government for an early allotment of funds for the work in question.

2. The Native Infantry Regiments now here are at present without an 800 yards range at all, and now that the musketry practice for this season is over it would be as well to commence work upon the new ranges at once so that they may be ready for use by the time the next season commences.

3. As Sappers are available here, I would propose that the services of a Company be placed at the disposal of the District Engineer for this work. This would not only ensure the work being well and quickly done, but would, I believe, somewhat reduce its cost also.

TRANSFERRED to the Public Works Department.

(By Order.)

Secretary to Government.

No. 90. ORDER THEREON, 9th April 1878, No. 1,760 W.
