Madrass Harbour Works.—The diversion of the principal drain through the surf bank of the Southern Harbour Groyne of the ordered.

E. No. 1409.

Madrass Municipality,

EXECUTIVE ENGINEER'S DEPARTMENT.

Madrass, 14th March 1878.

From

L. R. BURROWS, Esq.,

Acting President Municipal Commission.

To

The Honble D. F. Carmichael

Chief Secretary to Government.

SIR,

I have the honor to advise as follows for the information of His Grace the Governor with reference to G. O. N^o 904 W of 28th February 1878 and more particularly with regard to the first para of the Chief Engineer's Note

1. That if Mr. Clarke's scheme for the drainage system be carried out all the sewage will be brought landward and that in that case the diversion of the Southern drain through the South Pier of the Harbour Works will be unnecessary.

2. That if Mr. Clarke's scheme is not carried out, (as it has been condemned by the Commission) and will only be carried out by the pressure of Government. It is improbable that it will be so an intercepting sewer along the beach will be necessary.

3. That therefore in either case it will be waste of money to carry the sewer through the surf bank as proposed.

SIR,

I have the honor to advise as follows for the information of His Grace the Governor with reference to G. O. No. 904 W of 28th February 1878 and more particularly, with regard to the first para of the Chief Engineer's Note

1. That if Mr. Clarke's scheme for the drainage system be carried out all the sewage will be brought landward and that in that case the diversion of the Southmost drain through the South Pier of the Harbour Works will be unnecessary.

2. That if Mr. Clarke's scheme is not carried out, (as it has been condemned by the Commissioners and will only be carried out by the pressure of Government) it is improbable that it will be so an intercepting sewer along the beach will be necessary.

3. That therefore in either case it will be waste of money to carry the sewer through the surf bank as proposed.

I have the honor to say,

1/3

Endorsement of the Chief Secretary No 462 dated 15th March 1878 on letter from the Acting President Municipal Commission, Madras, No 409 dated 14th March 1878.

FOR ORDERS.

If [as described by the President of the Municipal Commission of Madras] the Municipality ~~do not carry out~~ Mr. Clarke's scheme necessitates the construction of an intercepting sewer, it would appear to be the duty of the Municipality to take the work in hand at once. Pending such action the diversion of the principal drain in the manner ordered in G.O. No 944 dated 28th February 1878, had better be held in abeyance.

If the Municipality do not carry out the scheme of drainage some arrangement with respect to the existing drains will be necessary and the Engineer writes that the necessary diversion of the works done or about to be done necessary after the above has been met - promptly by the Engineer in consultation with the Municipal Engineer. 21st March 1878.

Colonel P. B. Chief Engineer & Secy to Govt. No 2.

Read the following:—

Government of the Chief
Engineer on letter No 1409
the Ag. Resident
to Commissioner Madras
15 March 1878

N. E. No 462 dated 15 March

If the Municipality do
not carry out Mr. Clarke's
scheme of drainage some
arrangement with respect
to the existing drains will
be necessary, and the Har-
bour Works must bear
the charge of the necessary
elongation or diversion

of those which the Works
close or obstruct.
2. These necessary alter-
ations should be carried
out promptly by the
Municipality.
