General.
Account.

Read the following papers:—

No. 97. From Major J. PENNYCUICK, R.E., District Engineer, Salem, to the Chief Engineer, Public Works Department, dated Salem, 23rd March 1878, No. 247 S. L.

I HAVE the honor to forward, herewith, an emergent Indent, in duplicate, for hospital necessities received from the Assistant Apothecary in charge of the Marandahully Project.
One Indent in duplicate.

2. The Officer in charge of the taluq states that "the articles indented for are urgently required as the Upper Subordinates on the work are liable to be attacked by illness at any moment and they cannot afford to keep a stock of such stimulants, &c., at hand. A case of death from cholera has already occurred in the family of Mr. Supervisor Leslie owing to want of portwine, &c., for the treatment of the patient."

3. I am doubtful how far articles of this sort can legitimately be supplied and therefore forward the Indent for your instructions; if you approve of the supply I request you will be good enough to forward it to the Medical Storekeeper for compliance.
