GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

10th April 1878, No. 1,773 W.

Buildings and Roads.

Civil Works.

Read the following paper:—

No. 107. From Major J. O. HASTED, R.E., Superintending Engineer, Kistna, to the Chief Engineer, Public Works Department, dated Puliguddah, 30th March 1878, No. 258.

I HAVE the honor to report as follows with reference to Item 2, Part I, of Examiner's objectionable item statement for November 1877, printed in G.O., No. 1,042, dated 1st instant.

2. The work was reported in March 1876 completed, but accounts for wood-work not settled with workshop, a revised estimate for which was submitted and returned in order that some excessive rates for this part of the work might be explained.

3. A circular from the Examiner of Public Works Accounts, No. 32, dated 16th June 1877, stating that, agreeably to Public Works Code, Chapter VII, 1, 40, revised estimates are not required after works are completed, but that completion reports with explanation of excess should be submitted instead, was then received, on which a completion report was called for in July 1877. Pressure of famine work was the only excuse I could take for delay in submitting this report, and having repeatedly called for it, I now receive another revised estimate, from which it appears that there is still a claim on the part of workshop to be adjusted. I have sent to the officers concerned for necessary explanation, and in submitting the revised estimate will bring to notice the names of those who seem to deserve censure in the matter.

No. 108. ORDER THEREON, 10th April 1878, No. 1,773 W.

ORDERED to be recorded.
