Civil Works.

Read the following paper:—

No. 117. From J. O'SHAUGHNESSY, Esq., District Engineer, Nellore, to the Chief Engineer, Buildings and Roads, dated Nellore, 29th March 1878, No. 4,488.

THE District and Session Judge of Nellore has drawn my attention to the undoubted necessity that exists for constructing a porch at the entrance to his Court-house. A previous application was communicated to the Public Works Department with Government Order, Judicial, dated the 7th May 1873, No. 719, for inclusion of the estimate in the list of proposed new works. This order was recorded in the Public Works Department.—*Vide* G.O., 27th May 1873, No. 139, but nothing further appears to have been done.

2. I now beg to resubmit for orders the plan and estimate of the proposed work.

No. 118. ORDER THEREON, 10th April 1878, No. 1,778 W.

IN the existing pressure for funds for important works, there is no probability of money being available to build the *porte-cochère* with which it has hitherto been found possible to dispense.
