Establishment.
Account

Read the following paper:—

No. 289. Proceedings of the Government of India, Public Works Department, (Establishment—Account,) dated Fort William, 29th March 1878, Circular No. 34 P.W.

Transfers in the Accounts Establishment of the Public Works Department.

Read—

Note from Accountant-General, Public Works Department, No. 1,075 E, dated 15th December 1877, to the Government of India, Public Works Department.

RESOLUTION.—The superior Accounts Officers of the Public Works Department form, as in the Financial Department, an establishment of the Government of India. But the relations of the senior Public Works Accounts officer to the Local Government or Administration to which he is attached are intended to be closer than those which necessarily exist in the case of the Financial Officers. It is therefore expedient that, whenever the case is not emergent, changes or transfers of senior officers should not be made without consultation with the Local Government or Administration concerned. But, where the transfer of any other than the senior officer present with a Local Government or Administration is required, the incidence of the urgency usually lies elsewhere, and in such cases it will be expedient to forego a consultation should the consequent delay be likely to prove prejudicial to the public service.

2. Similarly, where time will allow of it, transfers of Accountants from one Local Administration to another should not be made without previous consultation or reference; but, where the exigencies of the case demand it, the transfers must be made without the loss of time which such references would entail.

ORDER.—Ordered, that this Resolution be communicated to all Local Governments and Administrations, with the remark that as serious mischief has ensued in some recent instances, in which there has been delay or obstruction in giving effect to the orders of the Government of India for transfers of officers and subordinates of the Accounts Establishment of the Public Works Department such delay or obstruction must be avoided in future.
