GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

3rd May 1878, No. 2,037 W.

Buildings and Roads.
Civil Works.

Read the following paper :—

No. 33. Endorsement of the Chief Secretary to Government, dated Ootacamund, 2nd May 1878, No. 730.

From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Administrative Department, Madras, to the Chief Secretary to Government, Marine Department, dated Madras, 26th April 1878, No. 3,269.

I HAVE the honor to report that the Master Attendant of Cochin has brought to my notice that the sea has breached the coast line in the vicinity of the Cruz Milagre Gap.

2. The Overseer of the Public Works Department has informed the Assistant Engineer of the district, and has promised to furnish estimates for protective works at once; but I would again beg to impress on Government the necessity that exists for closing the gap for good by filling up the lagoon. If this cannot be done with sand obtainable in the vicinity, I would suggest that the banks near the dam in the backwater be examined, and spoil taken from those containing most clay, sand, or tenacious matter, and utilized for filling up this lagoon, which owing to its situation jeopardizes the safety of Vypeen, and even Cochin itself, on every occasion when there is an abnormally high tide, accompanied with a fresh breeze from seaward.

TRANSFERRED to the Public Works Department for disposal.

(Signed) D. F. CARMICHAEL,
Chief Secretary.

No. 34. ORDER THEREON, 3rd May 1878, No. 2,037 W.

COMMUNICATED to the District Engineer, Malabar, who will report what has taken place, submitting a sketch of the coast and showing the point alluded to, with note of its present condition and what protective steps have been or are recommended to be taken.

(True Extract.)

From

J. H. TAYLOR, Esq., LIEUT., R.N.R.,

Master Attendant,

Administrative Department,

Madras,

To

The Honorable N. F. Carmichael.

Chief Secretary to Government,

Marine Department,

Fort Saint George.

SIR,

I have the honor to report that the Master Attendant of Cochin has brought to my notice that the sea has breached the coast line in the vicinity of the lower Nilagre Gap.

2. The Overseer of the Public Works Department has informed the Assistant Engineer of the District, and has promised to furnish estimates for protective works at once; but I would again beg to impress on Government the necessity that exists for closing the gap for good by filling up the lagoon. If this cannot be done with sand obtainable in the vicinity, I would suggest that the banks near the Dam in

in the Backwater be examined, and spoil
taken from those containing moist clay,
sand, or tenacious matter, and utilized
for filling up this lagoon, which owing
to its situation jeopardizes the safety
of Vyseem, and even Kochim itself, on
every occasion when there is an abnor-
mally high tide, accompanied with a
fresh breeze from seaward.

I have the honor to be
Sir

Your Most Obedient Servant

W. Taylor

Master Attendant
