General.
Account.

Read the following paper:—

No. 43. From the Director-General of Stores, India Office, London, to the Secretary to Government, Public Works Department, Fort St. George, Madras, dated London, 12th April 1878.

"I OBSERVE in the returned Packing Account of Public Works Stores per S.S. *Hydaspes* to Madras (for use on Famine Relief-works) in April 1877 that from six casks, numbered 2 to 7, there are missing the following: viz., 39 one-lb., 36 two-lb., and 3 three-lb. hammers.

2. Every care would appear to have been used in this country in the checking and packing of these hammers; and as there is no trace of any of them having been found subsequent to the despatch of the casks containing them, it would appear that the full number must have been shipped.

3. In order however to, if possible, elucidate the matter, I have to beg that you will be so good as to furnish me with a statement of the actual contents of each of the seven casks containing these hammers as found on their arrival in India.
