GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

8th May 1878, No. 2,080 W.

Buildings and Roads.
Civil Works.

Read the following paper:—

No. 71. From J. W. RUNDALL, Esq., District Engineer, Bellary, to the Chief Engineer, Buildings and Roads, dated Byrapur, 22nd April 1878, No. 397.

I HAVE the honor to submit, for the sanction of Government, an estimate of Rupees 125, accompanied by a plan and report, for strengthening the ventilators of the Subsidiary Jail at Raidroog by lining the ventilator frames with flat iron bars.

One plan.
" estimate.
" specification.

2. The estimate has been framed on the requisition of the District Magistrate. The improvement is considered necessary, in consequence of twelve prisoners having escaped from the Subsidiary Jail on the night of the 3rd February by removing a bar of one of the ventilators of the room in which they were located.

3. Funds will be met from the provision in the Provincial Budget for "Minor New Works, Civil Buildings."

No. 72. ORDER THEREON, 8th May 1878, No. 2,080 W.

THE plan and estimate of Rupees 125, for strengthening ventilators to the Subsidiary Jail attached to the Raidroog Taluq Cutcherry, are sanctioned for immediate execution.

2. The District Engineer, Bellary, will provide funds from the source indicated in the 3rd paragraph of his letter.

3. This sanction has been registered as Provincial No. 16 B of 1878-79.

MAY.

No. 71-72.

Subsidiary Bill attached to the Railway
Tally Chattry. — The plan and estimate for
strengthening the ventilators of the —
sanctioned for immediate execution.

Report to accompany the Estimate for improve-
ments to the Ventilators in the railroads attached
to the Taluk Chattry at Rairaoog.

Amount of Estimate Rupees 125—

It is proposed to line the frames of the Ventilators
with flat bar iron $2 \times \frac{3}{4}$. The top and bottom
frames will have lining both above & below, the side
frames will only have it to the exposed surfaces.

The bars of the top & bottom frames will have
holes cut in them to receive the Ventilator bars thus
covering the lower surface of the top & the upper
surface of the bottom frame will project into side
frames at both ends.

The bars covering the upper & lower surface
of the top & bottom frames will be rivetted together
at every alternate Ventilator bar as shown on the Plan.

The flat bars to the side frames will be let
in to those of the top & bottom frames & rivetted to them.

These improvements necessitate taking down
the Ventilators and the Estimate accordingly provides

for the same, as well as for refitting them.

Bellary.
