No. 351. Read again G.O., dated 8th April 1878, No. 1,740 W.

Read also the following paper:—

No. 351-A. From Major ROSS THOMPSON, R.E., District Engineer, Presidency, to the Chief Engineer, Buildings and Roads, dated Fort St. George, 17th May 1878, No. 965.

With reference to G.O., No. 1,740 W, dated 8th April 1878, I have the honor to submit, for sanction and allotment of funds, a revised plan and estimate, amounting to Rupees 6,400, for putting up cast-iron railings and constructing wall around the compound of St's Andrew's Kirk.

2. The cast-iron railings have been considered expedient to be put up for the portions of the compound bordering the main roads, and have accordingly been provided for in the estimate now submitted.

3. The Chaplain of the church has approved of the plan and estimate, and is willing to meet a portion of the cost of the estimate from savings under Ecclesiastical Department, as explained in his letter, dated 19th February 1878, copy of which was submitted with my previous letter on the subject, No. 6,374, dated 25th February 1878.

No. 355. ORDER THEREON, 31st May 1878, No. 2,352 W.

ORDERED that these papers lie over, there being no funds available for the work, and the savings in cost of Ecclesiastical Establishment not being transferable as supposed by the Chaplain.

2. His Grace the Governor in Council is, however, of opinion that the Railway Company are bound to provide and maintain a sufficient fence. The existing wire fence put up by the Company is not a sufficient protection from trespass in a town.

the station by the proposed work.
That there was no such fence before the station of
the Rs is to be left alone. as there
was then no such distance
I think it is better to provide and maintain a
sufficient fence - I do not think the more for

to sufficient protection /
