Account.

Read the following papers:—

No. 62. From J. W. RUNDALL, Esq., District Engineer, Bellary, to the Chief Engineer, Public Works Department—through the Examiner of Public Works Accounts—dated Camp Kuditan, 25th May 1878, No. 865.

I HAVE the honor to solicit sanction to Prismatic Compass No. 2,110, book value Rupees 60, lost in the Hospett Range, being written off the tools return of that range. The loss is said to have occurred in the following manner.

2. In May 1877 Sub-Overseer Soobroya Moodelliar, then in temporary charge of the Kudlighee Taluq, lent the instrument to one Vencatachellum Pillay, a temporary 2nd-Grade Sub-Overseer employed on famine relief works, for the purpose of surveying the road from Chornoor to Bellary. On the 13th June 1877 the temporary Sub-Overseer having occasion to proceed on duty from Chornoor to Goodakotta secured the instrument in a friend's house, which he was occupying as his residence in the village of Chornoor. On his return to Chornoor on the 19th June, after an interval of six days, he found the door of the house broke open, and private property to the value of Rupees 200 and the instrument carried away.

3. No report of the loss was made to this office, and it was only lately noticed in examining the range tools returns.

4. The Police, to whom intimation appears to have been given, failed to obtain any clue regarding the property, and the temporary Sub-Overseer has since left the service.

No. 62-A. From the Examiner of Public Works Accounts, dated 4th June 1878.
