No. 153. From Major ROSS THOMPSON, R.E., District Engineer, Presidency, to the Chief Engineer, Buildings and Roads, dated Fort St. George, 10th June 1878, No. 1,440.

I HAVE the honor to submit for sanction and allotment of funds an estimate, amounting to Rupees 210, for providing an iron wire netting for the doors and windows and renewing taps and pipes in the new kitchen at the General Hospital, Madras.

2. The Surgeon-General, Indian Medical Department, states that the tap and pipe through which the foul water escapes are much too small and often get clogged with particles of fat which impede the free discharge of water. It is therefore proposed to fix a larger tap and pipe as provided for in the estimate. The iron wire netting for doors and windows of the kitchen is required to prevent pilfering.

3. The estimate is approved of by the Surgeon-General, Indian Medical Department.
