GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

15th June 1878, No. 2,527 W.

General
Account.

Read the following paper :—

No. 161. Endorsement of the District Engineer, Presidency, dated Fort St. George, 8th June 1878, No. 1,411.

From G. H. FAULKNER, Esq., General Superintendent of Public Works Stores and Workshops, to the District Engineer, Presidency, dated Madras, 4th June 1878, No. 5.

I AM very anxious to get the timber sawing mill to work. It appears that a sum of Rupees 8,350 was applied for in the statements submitted with letter No. 3 of 21st May 1878.

2. The building is completed and the foundations for the mill are ready for the reception of the saw mill, which is also lying about the yard.

3. I have had the place cleaned and am getting the parts of the saw mill together, as whether started or not it is not advisable to allow it to remain in its present state. Rupees 1,400 are now required and this sum I now ask sanction to expend.

4. The present system of sawing by hand is not to be depended when such apparatus as this is available. We have plenty of work for the mill to do, and there are constant complaints from the men for sawn timber.

SUBMITTED to the Chief Engineer, Public Works Department, for orders.

2. A sum of Rupees 8,350 was applied for in the statement of incomplete works submitted with my letter, No. 1,101, dated 23rd May 1878, for completing the Public Works Stores and Workshop buildings at Seven Wells.

(Signed) ROSS THOMPSON, Major, R.E.,
District Engineer, Presidency.

No. 162. ORDER THEREON, 15th June 1878, No. 2,527 W.

WHEN passing orders upon the statements of incomplete works received from District Engineers, the Government will, if possible, provide funds, but none can be now sanctioned.

as whether started or not it is not advis-
able to allow it to remain in its present
state. Rs 1200 are now required and this
sum I now ask sanction to expend.

The present system of sawing by hand is
not to be defended when such apparatus as
this is available. We have plenty of work
for the Mill to do, and there are constant
complaints from the men for sawn timber.
