GOVERNMENT OF MADRAS
PUBLIC WORKS DEPARTMENT.

1st July 1878, No 2,713 W.

Buildings and Roads.
Civil Works.

Read the following papers —

No 11. From Major L. CONWAY-GORDON, R E, Examiner of Public Works Accounts, to the Secretary to Government Public Works Department, General Branch, dated Chcpauk, 12th June 1878, No 31 W.

In continuation of this office No 61 W, dated 20th May 1878, I have the honor to inform you that a further credit of Rupees 50,000 for June 1878 has been issued under the operations of G O, No 925, dated 16th April 1878, and to request you will inform me at your earliest convenience to what further extent I may issue funds for the execution of the works sanctioned in the Government Order referred to above pending sanction to the estimates

No 11-A. From Major J. PENNYCUICK, R E, District Engineer, Salem, to the Secretary to Government, Public Works Department, dated Salem, 17th June 1878, No. 86 S L

In continuation of my letter No 62 S L, of 24th May 1878, I have the honor to forward a statement of provisional sanctions required in the Tripatore Division similar to that previously forwarded for the Salem Division.

2 It will be seen that the sums requiring sanction are very large, but they in point of fact include nearly the whole of the famine expenditure in the two taluqs of Tripatore and Uttengiri. The number of coolies at one time was very large, amounting to over thirty thousand, in the two taluqs until the Vaniar Project was sanctioned there were no large works of any kind available, and their continued employment on the roads on which I found them when I took charge of the district was a matter of necessity

3 Estimates to cover this expenditure ought to have been submitted long ago, but there have been considerable difficulties connected with the management of this division owing to the fact of the executive supervision being very defective except during the short time that Lieutenant deVillamil was in charge, and he had as much as he could do in clearing off the arrears left by his predecessor. Mr West, who had charge of the division up to November, was in bad health and was moreover altogether overweighted by the management of the range under present circumstances, and Mr Gilby who succeeded Lieutenant deVillamil in February displayed the same incompetence there as in Salem

4 Orders have now been given that no further time be lost in the preparation of the estimates required, and it is hoped that they will be submitted shortly.

6th June. On this point
a reference was made to
him on the 18th Instant.
but no reply has been
received as yet.

The District Engineer
says that every effort is
being made to have the
estimates sent in.
