GOVERNMENT OF MADRAS
PUBLIC WORKS DEPARTMENT.

10th July 1878, No 2,918 W.

General
Establishment

Read the following paper —

No 174. From Major ROSE THOMPSON, R.E., District Engineer, Presidency,
to the Chief Engineer, Public Works Department, dated 10th St George's,
15th July 1878, No 2,227

Under paragraph 6, Chapter X, of the Public Works Code, I have the honor to forward in original the Northern Range Office's report regarding a cooly woman named Verramma, who fell from the top cornice of the North Black Town Church at 11 A.M. on the 8th July 1878

2. A further report, if necessary, will be forwarded

From Mr H PIMM, Supervisor in charge of Northern Range, to the District Engineer, Presidency, dated 10th July 1878, No 182

I beg to report for your information that a cooly woman named Verramma fell from the top cornice of North Black Town Church at about 11 A.M. on the morning of the 8th instant

2 She was at once taken to the Menagar Choultry Hospital. She has not broken or fractured any bones, but has sustained some internal injuries.

3 The cause of the accident is as follows — She had taken her basket of materials to the bricklayers then working at the west end of the roof, and, instead of returning the way she had come, went of her own accord, to the terrace roof at the east end of the Church along the projecting cornice it is believed for a private purpose (to make water), in returning she went along the projecting cornice on the north side until she got opposite the bellry, she then fell on top of the parapet wall of the passage to the bellry and then on to the ground, a total height of about 25 feet

4 I do not consider any body except herself is to be blamed, as she went of her own accord, and it was no way for conveying materials for the work in progress, as a special ramp of palmyras is formed at the north-west corner of the Church and the work has been carried out from east to west, giving no occasion for any cooly passing the completed work

No. 175. OLDER THURTON, 19th July 1878, No. 2,918 W.

The District Engineer
Presidency

Sir

I beg to report for your information
that a cooly woman named Veruma fell from the
top cornice of North Black Town Church at about
11 A.M. on the morning of the 8th Instant.

She was at once taken to the Moneygar
Charlton Hospital, she has not broken or fractured
any bones but has sustained some internal injuries.

The cause of the accident is as follows,
she had taken her basket of materials to the back
layers then working at the West end of the roof and
instead of returning the way she had come, went of
her own accord to the terrace roof at the East end
of the Church, along the projecting cornice, it is believed
for a private purpose (to make water) in returning she
went along the projecting cornice on the North side
until she got opposite the Belfry, she then fell on
top of the parapet wall of the passage to the Belfry and
then on to the ground, a total height of about 25 feet.

I

I do not consider any body except
herself to be blamed as she went of her own accord
and it was no way for conveying materials on the work
in progress, as a special ramp of palmyra is formed
at the North West Corner of the Church, and the work
has been carried out from East to West giving an occasion
for any body passing the completed work.

I beg to remain
Sir

Your obedient servant
