GOVERNMENT OF MADRAS
PUBLIC WORKS DEPARTMENT.

24th July 1878, No 2,979 W.

General
Establishment

Read the following papers —

No 248 Endorsement of the Examiner of Public Works Accounts, dated 15th June 1878, E No 67 CD.

From H UNWIN, Esq, District Engineer, Cuddapah, to the Chief Engineer, Public Works Department (through the Examiner of Public Works Accounts), dated Cuddapah, 14th June 1878, No 637

I HAVE the honor to submit an original letter, No 330 (to be returned), dated 6th instant, together with application for examination leave for two months, from 1st August next, received from Mr J Traill, Assistant Engineer in charge of Madanapully Range, and to recommend that the leave may be granted to enable him to study for the quarterly examination to be held in October

2. Mr Traill has had no leave since he joined the department in 1874, and it is a matter of personal importance to him to pass the examination as it may affect his promotion. He is an officer in every way deserving encouragement, and I trust that arrangements will be made to send a substitute to have charge of the range during his absence

From J TRAILL, Esq, CE, Assistant Engineer, Madanapully Range, to the District Engineer, Cuddapah, dated Madanapully, 6th June 1878, No 330.

In continuation of my No 264, dated 27th May, I have the honor to request that you will forward this my application for "examination leave" to the Chief Engineer. A quarterly examination in the Vernacular "Departmental Standard" will, I believe, take place early in October, and I should much like to have two months' leave, dating from the 1st August, to enable me to study for the same. I have had no leave of any description since I joined the department in 1874, and if I am denied it now I will be unable to appear for examination, and thus my chances of promotion will be much diminished

FORWARDED to the Chief Engineer, Public Works Department, with the leave application duly reported upon

(Signed) L CONWAY-GORDON, Major, R E,
Examiner of Public Works Accounts

No 248-A Endorsement of the Chief Engineer for Irrigation, dated Ootacamund, 18th May 1878

From Lieutenant-Colonel J BEATTY, R E, Superintending Engineer, Godavery, to the Chief Engineer, Public Works Department (through the Chief Engineer for Irrigation), dated Peravalli, 4th May 1878, No E

I HAVE the honor to draw your attention to my letter, No 3,960, of 15th March 1878, forwarding a letter from Lieutenant Dorward, R E, in which he asked permission to be allowed to join the Sappers at Bangalore for some months, in order to study for his examination for his Captaincy.

2 Lieutenant Dorward is very anxious to pass this examination as soon as possible. He intends to take furlough to Europe at the end of this year, and if he does not pass the examination before he leaves India, he will have to do so at home

during his furlough, and he does not consider it fair that his furlough should be broken up for that purpose.

3 The Adjutant of the Sappers and Miners considers that the examination could be passed after about three months' study at Bangalore, and mentions that some Royal Engineer Officers from the Mysore Province are shortly expected at Bangalore to study for the same examination.

4 In cases where the private interests of officers are so nearly concerned I do not think that it is advisable, unless the Government service would be seriously inconvenienced, to prevent them from acting as they think best for themselves. In the case of Lieutenant Dorward I have no objections to offer to his being allowed to go to Bangalore for a time.

5 As a temporary arrangement Lieutenant Langley can very well manage the range and his own sub-division, and, taking all things into consideration, I believe it to be advisable that Lieutenant Dorward should be allowed to pass his examination for the Captain's grade as soon as he possibly can. In the event of war his turn for promotion might come before he had passed his examination, and he would be passed over.

TRANSMITTED to the Chief Engineer, Public Works Department

It is understood* that Lieutenant A R F Dorward proposes to take furlough in November next or as soon thereafter as he may be able to obtain leave. On the other hand Lieutenant Rawson has at present no intention of applying for furlough.

In order, therefore, to make as few changes in the Delta as possible it is proposed that Lieutenant Rawson whose services have already been placed at the disposal of the Military Department for this purpose, should first proceed to prepare for his examination, and that after passing it he should be placed in charge of the Western Delta, relieving Lieutenant Dorward, who could then go to Bangalore and prepare for his examination, and after passing it apply for furlough.

2 It has been arranged that on Lieutenant-Colonel Beatty taking furlough Mr. Walsh will assume charge of the district, and Mr. Wynne has been posted to the district to take his place as Executive Engineer, Eastern Delta.

Colonel Beatty has not mentioned the officer whom he would propose to place in charge of the head-quarters sub-division vice Rawson; but as Mr. Bulton is attached to that division, and has now had some experience, probably he may be considered available, and Mr. Young may be qualified to take up the work of a sub-division. If so, the arrangements will be fairly complete. On this point, however, the Superintending Engineer's opinion is requested.

(Signed) JOHN MULLINS, Lt-Col, R E,
Chief Engineer for Irrigation

No 248-B. Endorsement of the Chief Engineer for Irrigation, dated Ootacamund, 15th June 1878

From Lieutenant-Colonel J BEATTY, R E, Superintending Engineer, Godavery, to the Chief Engineer, Public Works Department (through the Chief Engineer for Irrigation), dated Dowlaishwaram, 5th June 1878, No 700.

With reference to the endorsement of the Chief Engineer for Irrigation on my letter, No E, dated 4th instant, I have the honor to inform you that I am of opinion that Mr. Young is certainly not qualified to take charge of a sub-division, or likely to be so for some time to come, and in this opinion the Divisional Officer fully agrees with me. It is also not advisable to give him much work for a few months longer, or until he has passed in Telugu, in order that he may have time for study. He may possibly, I understand, apply for examination at the next quarterly examination.

2 The Chief Engineer for Irrigation mentions Mr. Bulton, and does not seem to be aware that that officer is now in charge of the Northern Sub-division of the Eastern Delta, to which he was appointed when Sub-Engineer Pouracres was ordered to Vizagapatam. The Northern Sub-division is fully as much as Mr. Bulton is now capable of.

3 Consequently it is very desirable that an officer of some experience should be at once appointed to this district to take Lieutenant Rawson's place and set him free to proceed to Bangalore for the purpose of preparing for and passing the examination for his Captaincy. On Lieutenant Rawson's return from Bangalore he will be placed in charge of the Western Delta.

4 Lieutenant Rawson's successor should, if possible, be a Royal Engineer, as it seems not improbable that the Eastern Delta Division Officer will very shortly have to carry out certain military works recommended by the Committee on Coast Defences, and it seems advisable that these should be constructed under the superintendence of a Royal Engineer.

5 With regard to Lieutenant Dorward, it would have been of course most convenient that he should not leave the district until there was an officer available to relieve him, but Lieutenant Rawson, who is to take charge of that division permanently, has not yet proceeded to Bangalore, and no doubt he will be at least three months passing his examination. Mean time Lieutenant Dorward is most anxious to get away at once, fearing he will have insufficient time for the examination before his furlough becomes due, and being desirous of getting over it before that date. And it does seem hard that he should be detained here when he has to sacrifice half his present pay in order to render himself fit for promotion in his corps. On reconsideration, therefore, I again recommend that he should be allowed to proceed to Bangalore, handing over charge of the division, as a temporary measure, to Lieutenant Langley.

TRANSMITTED to the Chief Engineer, Public Works Department

The young Assistant Engineers who joined the Godavery District towards the end of 1877 to learn their work not being yet qualified to take sub-divisional charges, before Lieutenants Rawson and Dorward can be allowed to leave the Delta and proceed to Bangalore to prepare for the examination required to be passed by Subalterns before obtaining promotion to the rank of Captain, it will be necessary, the undersigned considers, to post officers to the Delta to relieve them or fill the vacancies which their departure will cause.

2 It is not apparent how the necessary arrangements can be made at the present time, for there are no Executive or Assistant Engineers available for transfer except, perhaps, Lieutenant C B Henderson, who might be posted to the Eastern Delta to take Lieutenant Rawson's place; but it has to be remembered that Lieutenant Smart has been taken away from the Kistna to do Lieutenant Henderson's work at Nellore, and it is impracticable that the work of the Eastern Delta, Kistna, should be properly done while there is there only one Assistant Engineer, Mr. C M Smith, instead of three, the proper complement. Moreover, it is more than doubtful whether Lieutenant Henderson is yet fit for work in the plans.

3 Until, therefore, Messrs Jopp and Young qualify for sub-divisional charges, or until, by the necessity for relief-works ceasing, officers from famine districts become available, it appears to be impracticable to allow either Lieutenant Rawson or Lieutenant Dorward to leave the Godavery. The corps list dated 1st May 1878 shows that these officers were 59th and 60th Lieutenants on that date. The list shows that forty-one Subalterns were promoted in 1877, but only eleven in 1876 and nine in 1875. Also of the forty-one in 1877, eighteen were promoted on the 1st October, no doubt, under the new Warrant. On the whole then it is improbable that the prospects of these officers will be prejudicially affected by a delay of a few months in commencing the preparation for their examination.

(Signed) JOHN MULLINS, Lt-Col, R E,
Chief Engineer for Irrigation

No 248-C. From Lieutenant-Colonel J BEATTY, R E, Superintending Engineer, Godavery, to the Chief Engineer, Public Works Department, dated Dowlaisheram, 11th June 1878, No 783

WHEN I wrote my letter of 12th March 1878, No 3,914, regarding Lieutenant Rawson's going to the Sappers to pass the examination for Captaincy, I was not aware that that officer has never had any privilege leave since he joined the department

2 He has just brought this to my notice and inquired whether he cannot be allowed three months' privilege leave now, which he would employ in passing the examination

3 Of course if he failed to pass and rejoin within the three months, he would then only be entitled to military pay for any further period he may be absent from his duties in this district

4. I may mention that I have not yet been able to relieve him, (1) having no one fit to take his place, and (2) with the prospect of orders arriving to go on with the military works recommended for coast defence

No 248-D From the same Officer, dated Dowlaisheram, 18th June 1878, No. 886

In continuation of my letter, No 700, of 5th instant, I have the honor to specially point out that an officer is required to take Lieutenant Rawson's place and enable me to allow him to proceed to Bangalore to pass the examination for his Captaincy.

2. The head-quarters sub-division of the Eastern Delta, which Lieutenant Rawson now holds, is a very important one. The expenditure in it is heavy, and it is not desirable to leave it in charge of a subordinate, which would be the only arrangement I could now make for relieving Lieutenant Rawson.

3 I beg to suggest Lieutenant R E Hamilton, R E, as a suitable officer to relieve Lieutenant Rawson if arrangements can be made for his transfer to this district.

No 249 ORDER THEREON. 24th July 1878, No. 2,979 W.

THE Chief Engineer will arrange for the relief of Mr Trull as well as of Lieutenant Dorward, R E, and Lieutenant Rawson, R E, as soon as the exigencies of the public service admit of their services being made available for examination leave or officers can be spared to relieve them

CAMP DOWLATSHIVRAM 4th May

1878

SIR,

I have the honor to draw your attention
to the letter No 3960 of 15th March
1878 received from Lieutenant
Commander F. E. in which he asked per-
mission to be allowed to join the sap-
pers at Bangalore for six months
in order to study for his examination for
his Captaincy.
Lieutenant Commander is very anxious
to pass this examination as soon as pos-
sible. He intends to take furlough
to Europe at the end of this year, and
if he does not pass the examination be-
fore he leaves India he will have to do
so at home during his furlough, and he
does not consider it fair that his furlough
should

3. should be broken up so that in no case,
 the Adjutant at the Station and
 Miners considers that the Examination
 could be passed after about 3 months
 study at Bangalore and mentions
 that some Royal Engineer Recruits
 the Mysore Province are shortly selected
 at Bangalore to study for the same Ex-
 amination.

4. In cases where the location of
 officers are so much varied I
 do not think that it is a nuisance,
 unless the Government service would
 be seriously inconvenienced, to prevent
 them from acting as they think best
 for themselves. In the case of Lieut
 Forward I have no objection to allow
 to his being allowed to go to Bangalore
 for a time.

5. As a temporary arrangement, Lieut
 Langley can act as one of the
 Range and his own work, but
 taking all things into consideration,
 believe it to be advisable that Lieut
 Forward should be allowed to pass

his Examination for the Captain's grade
 as soon as he possibly can. In the
 event of war, his turn for promotion
 might come, as he had passed his
 Examination and he would be passed
 over.

1878

No. E

This Office letter No. 9396
of 15th March 1878 —
Drawing is attention to
and requesting instructions —

From S. E. Godavery to E 4th May 1878.

Transmitted to the Chief Engineer
P.W.D.

*demi-officially

It is understood that Mr. A. R. F. Doward
proposes to take furlough in November
next or as soon thereafter as he may be
able to obtain leave. On the other hand
Mr. Rawson has at present no intention
of applying for furlough.

In order therefore to make as few
changes in the Delta as possible it
is proposed that Lieut. Rawson whose
services have already been placed at
the disposal of the Milly Dept. for this
purpose should first proceed to prepare
for his examination and that after
passing it he should be placed in
charge of the Western Delta, relieving
Lieut. Doward who could then go to Rang-
lore and prepare for his examination
and after passing it apply for furlough.
2. It has been arranged that on
Colonel Beatty taking furlough,
Mr. Walch will assume charge of
the

the District and Mr. Hybrow has
been posted to the District to
take his place as Engr. E.D.

Colonel Reatty has not mentioned
the officers whom he would propose
to place in charge of the Head Quarters
subdivision vice Rawson but as
Mr. Burton is attached to that
Division and has now had some
experience probably he may be
considered available and Mr.
Young may be qualified to take
up the work of a subdivision.
If so the arrangements will be
fairly complete. On this point however
the Superintending Engineer's opinion is requisite

PUBLIC WORKS DEPARTMENT

MADRAS.

CAMP DOWLAISHWERAM, 5 June 1876

SIR,

With reference to the endorsement
of the Chief Engineer for irrigation in my
letter No. 4 dated 4th Instant, I have
the honor to inform you that, I am of
opinion that Mr. Young is certainly not
qualified to take charge of a sub-division
or likely to be so for some time to come
and in this opinion the Divisional Engr.
- Mr. Gully agrees with me. It is
also not advisable to give him much
work for a few months longer or until
he has passed in P.W.D. in order that
he may have time for study. As far
possible I understand a reply for reser-
- vation at the next quarterly reser-
- vation.

2. The Civil Engineer, Bangalore, is now
-tion Mr. Purton and does not seem
to be aware that that officer is now
in charge of the Northern and Division
of the Eastern Dcta to which he was
appointed when the Engineer's services
was ordered to Bangalore. The
Northern and Division is still as much
as Mr. Purton is now available.

3. Consequently it is now desirable
that an officer of some experience
should be at once appointed to this
District to take Lieutenant Rawson's
place and set him free to proceed to
Bangalore for the purpose of examining
for and passing the examination for
his Captaincy. In Lieut. Rawson's
return from Bangalore, he will be
placed in charge of the Western Dcta.

4. Lieutenant Rawson's successor should
if possible be a Royal Engineer as it
seems not improbable that the Eastern
Dcta Division Officer will very shortly
have to carry out certain Military works
recommended by the Committee on Cash
Defences

Decided upon to be made a point that
there should be a suitable officer to
be appointed to the District Engineer.
5. With regard to Lieut. Rawson it
would have been desirable to have
-sented that he should not leave the
District until there was an officer
-available to relieve him. But Lieut. Rawson
Rawson who is to take charge of that Dis-
-vision, however, has not yet been
sent to Bangalore and no doubt he will
be at least 3 months passing his exam-
-ination. Meanwhile Lieut. Rawson
is most anxious to get away to see
-earnings he will have insufficient time
for the examination. Before his return
becomes due, and seems desirous of get-
-ting over it before that date. And
it does seem hard that he should be
detained here when he has to sacrifice
half his present pay in order to render
himself fit for promotion in his Corps.
On reconsideration therefore I again re-
-commend that he should be allowed
to proceed to Bangalore handing over charge

in the Division as a tem.
- for measure to Lieut
Langley.

I have the honor to be

MIL

DATED 5th June 1878
RECEIVED

No. 700

Lieutenant Rawson and
Lieutenant Dorrard -
Reports the measures
- commended for relief
who have to go to Bangalore
- here for Captaincy ex
- amination -

From J. E. Godavery No 700 - 5th June/78.

Transmitted to the Chief
Engineer P.W.D.

The young Assistant Engineers
who joined the Godavery District
towards the end of 1877 to learn
their work not being yet qualified
to take subdivisional charges,
before Lieutenants Rawson and
Dorrard can be allowed to leave
the Delta and proceed to Bangalore
to prepare for the examination
required to be passed by sub-
alterns before obtaining promotion
to the rank of Captain, it will
be necessary, the undersigned con-
siders, to post officers to the Delta
to relieve them or fill the vacancies
which their departure will cause.
2 It is not apparent how the
necessary arrangements can be
made at the present time, for
there are no Executive or Assistant

Engineers available for transfer except perhaps Lieut^t C B Henderson, who might be posted to the Eastern Delta to take Lieut^t Rawson's place, but it has to be remembered that Lieut^t Smart has been taken away from the Kistna to do Lieut^t Henderson's work at Bellare, and it is impracticable that the work of the Eastern Delta, Kistna, should be properly done while there is there only one Assistant Engineer, Mr C M. Smith, instead of 3 the proper complement. Moreover it is more than doubtful whether Lieut^t Henderson is yet fit for work in the plains.

3 Until therefore Messrs Jopp and Young qualify for subdivisional charges, or until by the necessity for relief works ceasing officers from Famine Districts become available, it appears to be impracticable to allow either Lieut^t Rawson or Lieut^t Woodward to

leave the Godavery. The Corps list dated 1st May 1878 shows that these officers were 59th & 60th Lieutenants on that date. The list shows that 41 subalterns were promoted in 1877 but only 11 in 1876, and 9 in 1875 - Also of the 41, in 1877, 18 were promoted on the 1st October no doubt under the new warrant. On the whole then it is improbable that the prospects of these officers will be prejudicially affected by a delay of a few months in commencing the preparation for their examination.
