GOVERNMENT OF MADRAS
PUBLIC WORKS DEPARTMENT.

29th July 1878, No. 3,021 W.

Buildings and Roads
Civil Works.

Read the following paper —

No. 277. From J W RUNDALL, Esq., District Engineer, Bellary, to the Chief Engineer, Buildings and Roads, dated Bellary, 11th July 1878, No. 1,627

I HAVE the honor to submit, for the sanction of Government and provision of funds, an estimate of Rupees 1,720, accompanied by a report, for repairing the roof of the old Court-house in the District Jail at Bellary.

2. I inspected this building at the request of the Superintendent of the Jail. The roof is of palmyrah, and is old. Some of the verandah rafters have given and have been propped up. The estimate provides for substituting teak rafters for the damaged palmyrah ones. The walls are sound, and most of the roof is good. I think that, considering the dearth of jungle wood, and that it is always attacked by carpenter bees, it is truer economy to use teak instead of jungle wood.

3. The estimate has been sanctioned by the Inspector-General of Jails.

No. 278. ORDER THEREOF, 29th July 1878, No. 3,021 W.

The District Engineer will report whether the roof cannot be so strutted and temporarily supported as to render it safe for occupation for some time to come. The Government can hold out no hopes of funds for the estimate now before them, and, unless the roof is in absolute danger of falling in, must decline sanction.

Approved & accompanied the Estimate for repairing the roof of old Court House in the District Jail at Bellary

Amount of estimate Rupees 1700-0-0

About 40 of the palmyra rafters in the Veranda of the building are defective and require renewal, new teak rafters will be substituted for them, new brass runners are also provided for in the Estimate, the Veranda roof will be stripped of its tiles mats and bamboo supports which will be brought down to the ground and all nails removed, the rafters will be sorted & used forty of the worst rejected and their places supplied by the new teak rafters. The present double palmyra brass runners will be taken down and the new teak brass runners put in their places, they can either be split into two parts connected by bolts as at present to allow the iron palisades to pass up between or they can be placed entirely on one side of the upper part of the

FROM

The District Engineer
Bellary

TO

The Chief Engineer
Buildings and Roads.

SIR,

Enclosures.

I have the honour to submit
for the sanction of Government and pro-
vision of funds an Estimate of Rs 1720, accom-
panied by a report for repairing the
roof of the old Court House in the District
Jail at Bellary.

I inspected this building at the
request of the Superintendent of the Jail.
The roof is of Palmyrah and is old. Some
of the Verandah rafters have given ^{way} and
have been propped up. The Estimate
provides for substituting teak rafters
for the damaged palmyrah ones. The
walls are sound and most of the roof is
good. I think that considering the
