GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Civil Works.

Read the following papers:—

No. 183. Endorsement of the Chief Secretary to Government, Public Department, dated Ootacamund, 15th July 1878, No. 1,260.

From Surgeon-General G. SMITH, M.D., Indian Medical Department, to the Chief Secretary to Government, Public Department, dated Fort St. George, 11th July 1878, No. 391.

I HAVE the honor to submit the following requisition made by the Matron Superintendent and approved by the Senior Medical Officer, General Hospital, for the consideration and orders of His Grace the Governor in Council.

2. The Matron Superintendent points out that in the enclosure of the General Hospital no accommodation has been provided for her servants, and that in consequence she is subject to grave inconvenience, inasmuch as her butler may not be at hand in the event of an emergency occurring, nor can she have the advantage of his presence for the protection of her carriage and horse.

3. In the communication from the Senior Medical Officer appended the request of the Matron Superintendent is approved of, and a rough plan is exhibited showing the position of the proposed godown for Miss Pierrepont's butler and his wife. I support the application, and have ascertained that suitable accommodation, including a small latrine, can be provided at a cost not exceeding Rupees 360.

From Surgeon-Major M. C. FURNELL, M.D., Senior Medical Officer, General Hospital, to the Deputy Surgeon-General, Indian Medical Department, Presidency, dated Madras, 24th April 1878, S. No. 1,050.

I HAVE the honor, with reference to memorandum of Surgeon-General, No. 2,582, dated 13th instant, to remark that—

- (a.) I approve of Matron Superintendent's request.
- (b.) That I find she requires accommodation for her butler and his wife only.
- (c.) I append a rough plan as required.
- (d.) I am also compelled to append a copy of the Matron Superintendent's letter, from which it will be seen she particularly requests the godown may be waterproof, as the "butler suffers from fever if exposed to damp."
