General.
Account.

Read the following papers:—

No. 159 From Captain R. R. L. BROCKMAN, R.E., District Engineer, Tanjore, to the Chief Engineer, Public Works Department, dated Thanagudy, 25th August 1878, No. 1,930

With reference to paragraph 18 of G.O., No. 2,612 W, dated 14th June 1878, calling for further explanation with regard to the outlay of Rupees 1,550 on tools without appropriation of funds, I have the honor to inform you that the reason under which no application was made for an allotment for the same is because this office was not aware of their value and the actual cost of carriage from Madras to Tanjore, it was proposed, therefore, to apply for the necessary allotment of funds after the receipt of the usual bill in this office from the Superintendent of Public Works Stores. The bill in question appears, however, to have been forwarded to the Range Officer direct from the Public Works Stores so late as April 1878, when it was too late to apply for funds to cover the outlay which appertained to the previous year. It will be observed from the explanation above furnished that the omission to apply for the necessary allotment of funds within the last official year was due entirely to the delay in the receipt of the bill from the Public Works Stores.

No. 159-A Endorsement of the District Engineer, Presidency, dated 7th September 1878, No. 3,410

From G. H. FAULKNER, Esq. Executive Engineer in charge of Public Works Stores and Workshops, to the District Engineer, Presidency, dated Madras, 6th September 1878, No. 693

With reference to your No. 3,211, dated 30th August 1878, on endorsement from the Under Secretary to Government, Public Works Department, communicating letter No. 1,931, dated 25th August 1878, from the District Engineer, Tanjore, I have the honor to state that bills on account of tools received for Famine Relief-works could not be made until all charges connected therewith were received in this office. The bill on account of tools sent from Ceylon was received on the 22nd March last. Bills were immediately prepared and furnished to the officers concerned and I find that Transfer Debit Advice to the Range Officer, Tanjore, was forwarded to that officer on the 30th March 1878, and Credit Acknowledgment given by him on the 13th April 1878 to be adjusted in the accounts of March 1878. There does not, therefore, appear blame on account of delay to attach to this office.

The original letter is herewith returned.

Submitted to the Chief Engineer, Public Works Department, with reference to the Under Secretary's undersd. letter No. 341 F, dated 20th August 1878, &c., with returned.
