Buildings and Roads.

Civil Works.

Read the following paper :—

No. 251. From Colonel P. O'CONNELL, R.E., Superintending Engineer, Chingleput, to the Chief Engineer, Public Works Department, dated St. Thomas' Mount, 19th September 1878, No. 3,426.

I HAVE the honor to inform you that the officer in charge of No. 1 Range has brought to notice that heavy floods have been lately passing into the sea through the Ennore bar and has suggested the opening of a small channel at the site of the old bar, as he expects it would have a beneficial effect in carrying off the accumulations of sand formed from the cuttings made this year. Under the circumstances and knowing myself the site I have, subject to your approval, authorised the Range Officer to carry out the work (the cost of which he estimates at about Rupees 50) on the occurrence of the next heavy floods.

No. 256. ORDER THEREON, 23rd September 1878, No. 3,734 W.
