Buildings and Roads.
Civil Works.

Read the following paper :—

No. 158. From J. W. RUNDALL, Esq., District Engineer, Bellary, to the Chief Engineer, Public Works Department, dated Bellary, 30th September 1878, No. 2,720.

With reference to paragraph 3 of G.O., No. 3,516 W, of the 4th instant, I have the honor to report that while at Gooty on the 27th instant I inspected what is called "the bungalow recently built under Lieutenant Wilson's directions near the Railway Station." The building in question is a mere shed, the walls of inferior rubble in mortar, the roof sloping terrace. It contains two rooms, each 10 feet x 10 feet, with small windows and one open space, without door between them. The building is more like a cook-room than anything else, but is said to have been built by Lieutenant Wilson as an office and place for his servants and peons.

2. Besides this, it is built close to the house of Mr. French, the Railway Resident Engineer, who says he told Lieutenant Wilson he might build it provided it were allowed to stand and not subsequently removed.

3. Under the above circumstances the building in question cannot, I think, be utilised as an Overseer's residence, and the repairs as sanctioned to the existing building will be carried out.

No. 159. ORDER THEREON, 12th October 1878, No. 3,981 W.

RECORDED.

2. The building in question will be placed in charge of the Public Works Department unless needed by and taken over at its value by the Railway Company.
