Dated 26-10-1878	197 .

Not to be folded or roughly handled

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

26th October 1878, No. 4,162 W.

Buildings and Roads.
Civil Works.

Read the following papers:—

No. 307. From Colonel P. O'CONNELL, R.E., Superintending Engineer, Chingleput, to the Chief Engineer, Public Works Department, dated Red Hills, 25th September 1878, No. 3,490.

I HAVE the honor to forward for sanction the enclosed estimate, amounting to Rupees 600, for providing in the new embankments recently constructed parallel to the Cochrane's Canal temporary means of escape during the ensuing monsoon to the drainage of the lands to the west of the canal and to form with the earth obtained by the formation of the temporary escape an embankment for the protection from floods of the three vents sluice now in progress across the Veysarpady drainage channel on the Trivattur road.

2. It is proposed to provide at the site of the temporary escape a permanent work, plans and estimates for which are under preparation and which, when submitted for sanction, will be accompanied by a full report as to the necessity of the work.

No. 307-A. From the same Officer, dated Kadalur, 5th October 1878, No. 3,586.

IN reference to your telegram, dated 30th September 1878, intimating, in reply to my No. 3,490, dated 25th September 1878, that the work of forming a temporary escape, &c., in the west bank of Cochrane's Canal is chargeable to famine funds, I have the honor to observe that in accordance with G.O., Famine Department, No. 2,009, dated 24th September 1878, communicated in Public Works No. 3,791 of 26th September 1878, the canal extension work alone is to be considered as a relief-work in this district from the 30th September 1878, from which date the distinction between budgeted and famine works is to be revived. It would appear, therefore, that all works in this district (excepting the canal extension, kept up as a relief-work, and other unbudgeted works) are to be executed in the ordinary way. If however, in consequence of the temporary escape, &c., above referred to being in some way connected with the Veysarpady drainage scheme, which is an unbudgeted work, it has been considered that the same should be chargeable to famine funds, the sanction of Government should be obtained to the estimate, which is above Rupees 200, under paragraph 1 of G.O., Famine Department, No. 630, dated 8th March 1878, and then, if the work is to be charged to famine funds, the question as to how it should be carried out in the event of famine labor not being available for it remains to be settled. I request therefore further instructions on the matter.

No. 308. ORDER THEREON, 26th October 1878, No. 4,162 W.

THE estimate of Rupees 600 is sanctioned, and the necessary funds provided from the Provincial Reserve.

2. The sanction will be communicated by telegram.
3. This sanction has been registered as Provincial No. 119 B of 1878-79.

From

THE SUPERINTENDING ENGINEER,

CHINGLEPUT.

To

The Chief Engineer
Public Works Department.

Sir,

Enc 1.

I have the honor to forward for
sanction the enclosed estimate amount-
ing to Rs. 600 for providing in the new
embankments recently constructed
parallel to the Cockrane Canal —
— temporary means of escape during the
ensuing monsoon to the drainage of
the lands to the west of the Canal
and to form with the earth obtained
by the formation of the temporary es-
— cape, an embankment for the protection
from flood of the three vents sluice
now in progress across the Vysarpa
drainage channel. on the Trinath Rao

2. It is proposed to provide at
the site of the temporary escape
a permanent work plans and
estimates for which are under
preparation and which when

submitted for sanction, will be accompanied by a full report as to the necessity of the work.

I have the honor to be
Sir

CHINGLEPUT SUPERINTENDING ENGINEER'S OFFICE,
Camp Nadalar
SAINT THOMAS' MOUNT, 5th Oct 1878.
Sep 8

From

THE SUPERINTENDING ENGINEER,

CHINGLEPUT.

To

The Chief Engineer
Public Works Department.

Sir,

In reference to your Telegram, dated
30th September 1878, intimating, in reply
to my No. 3490 dated 25th September 1878,
that the work of forming a temporary
escape in the West Bank of Cochea
canal is chargeable to Famine Funds.
I have the honor to advise that in
accordance with G.O. Famine Depart-
ment No. 2009 dated 24th September 1878. Co-
municated in P.W. No. 3791 of 26th Sept-
1878, the Canal extension work alone
is to be considered as a Relief work
in this District from the 30th Septem-
ber 1878. From which date the disburse-
ment hudgetted and famine work
is to be reviewed. It would appear
therefore that all works in this
District (excepting the Canal ex-
-tension - kept up as a Relief work
and other unhudgetted works) are
to be executed in the ordinary manner.

of course, in consequence of the
- porous escape & above referred to
being in some way connected with the
Vejharpady drainage scheme - which is
an undoubted work - it has been
considered that the same should be
chargeable to Jammie Funds, the sanction
of Government should be obtained
to the estimate, which is about Rs 200,
under para 1 of G. O. Jammie Deptt.
No 630 dated 8th March 1878 and
then. if the work is to be charged
to Jammie Funds, the question as
to how it should be carried out
in the event of Jammie labour
not being available for it, remains
to be settled. I request therefore
further instructions on the matter.

I have the honor to be
Sir

Your most obedient servant
