PUBLIC WORKS DEPARTMENT.

Read the following paper:—

No. 204. From F. B. PEMBERTON, Esq., C.E., Officiating District Engineer, South Arcot, to the Chief Engineer, Public Works Department, dated Cuddalore, 8th November 1878, No. 288.

Mr. A. D'Cruz, Writer on Rupees 35 in this office, attained the age of fifty-seven at the end of October. His retention in the service for one year was recommended in this office No. 91 of the 23rd July 1877, and sanctioned in G.O., No. 2,116 W, dated 10th May 1878, but this period expired by the end of October last.

2. Mr. D'Cruz is, as already reported, a pensioner drawing a compensation pension of Rupees 32-8-0; his present service (which cannot of course count for any further gratuity or pension) is seven years. Although an old man, Mr. D'Cruz still appears active for his years and able to do a fair day's work for another year at least, if his health does not give way. I doubt whether his retention for this period will be favorably considered by Government owing to the additional hands that are to be retained in the Circle and Divisional Offices under the present re-organization of the department; but, if this cannot be done, I would recommend that his services may be retained until this office is fully amalgamated with the Circle or Divisional Office, there being now sufficient work for the Clerks left in this office.

3. C. Rungiah Naidu, Gumastah on Rupees 15, is another compensation pensioner who attains his fifty-sixth year in December next. His present service is five years and four and a half months. The whole of his present and former service has been in the Record Department in which he has vast experience and has been most useful. He will not do for any other work. He is still active, and, as a Record-keeper in the Circle or Divisional Office, will prove of great use for a few years more. I would, as in the preceding case, recommend his retention in the service at least until this office is amalgamated and the records in his charge are disposed of, if not for a longer period.

4. A copy of this letter has been forwarded to the Superintending Engineer of the Circle for information.

No. 205. Order thereon, 16th November 1878, No. 4,389 W.
