GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

26th November 1878, No. 4,514 W.

Buildings and Roads.

Civil Works.

Read the following papers :—

No. 312. Endorsement of the Acting Chief Secretary to Government, dated Ootacamund, 7th November 1878, No. 2,068.

From W. S. FOSTER, Esq., Collector of the Godavari District, to the Acting Chief Secretary to Government, Fort St. George, dated Cocanada, 28th October 1878, No. 41.

As directed in paragraph 13 of the Government Order, Public Department, dated 1st April last, No. 570, I have the honor to forward, herewith, an estimate for a Dispensary at Bhadrachalam received from the Acting District Engineer, and to request that the Government will be pleased to sanction the amount of Rupees 3,696 for the construction of the same.

2. A copy of the letter from the District Engineer, dated 18th instant, No. 2,342, forwarding the above estimate, is also enclosed.

From G. T. WALCH, Esq., Acting District Engineer, Godavari, to the Collector of the Godavari District, dated Dowlaishvaram, 18th October 1878, No. 2,342.

With reference to your letter, No. 97, of the 16th July 1878, I have the honor to forward, herewith, an estimate amounting to Rupees 3,696, for a Dispensary at Bhadrachalam, prepared in accordance with the standard plan No. 1.

2. Mr. Vanstavern states that the site for the building has been selected by the Tahsildar, and is a fair one, being one-fourth of an acre of ground.

3. Rupees 500 have been provided in the estimate for a well, which will have to be sunk some 45 feet through rock, and is therefore expensive.

TRANSFERRED to the Public Works Department for disposal.

(Signed) C. G. MASTER,
Acting Chief Secretary.

No. 313. ORDER THEREON, 26th November 1878, No. 4,514 W.

THE estimate of Rupees 3,696 for a Dispensary at Bhadrachalam is sanctioned.

2. It will be considered in the Financial Department whether funds can be made available during the current official year.

3. This sanction has been registered as Provincial No. 148 B of 1878-79.

Spare Copies

Solid

solid rock Metamorphic hard and before sinking the well it would be advisable to put down a boring, to ascertain the quality of the water as the water in some wells there now is unfit for drinking, near to the site selected by the Sahildar for the dispensary there is a well with good water this will however not having been sunk deep enough becomes dry in the dry season it would be probably considerable loss to deepen this well there to dig a new one.

Excavation The foundation to be excavated to 3 feet in depth for the main building and 2 feet for the verandah.

Brickwork in mortar Foundation and plinth all doors and windows jambs and a 9 inches course over the walls and verandah walls.

Brickwork in clay The walls above plinth will be of burnt brick in mud two bricks thick or 18 inches.

Archwork Will be burnt brick in mortar.

Woodwork The wood employed in the building will be teak.

The verandah posts Will be tenoned in sand stone slabs.

Doors and windows The doors and windows will have raised and screwed panels windows to be of ordinary construction, the store room will have batten doors and windows.

Roofing The roof to have two king posts trusses, laid on wall plate with purlins, rafters and battens on this flat tiles and pan tiles with special tiles for hips and ridge.

Flooring The ground to be well rammed over that a course of wall brick well levelled and over that 8 inches square tiles well jointed.

Plastering Walls will be plastered with two coats of mortar.

Painting All doors windows and verandah posts

posts to have two coats of green paint.

Hospital ward

45/14

Excavation The excavation for foundation of posts and breast walls to be made to the full depth as shown in the plan.

Posts To be set up vertically on a foundation of concrete and then the space round to be filled in with concrete and well rammed.

Brickwork in clay The breast walls between posts will be brickwork in clay.

Walling &c The walling as well as doors and windows will consist of bamboo matting with bamboo reapers.

Roofing The roof will consist of jungle wood rafters and reapers thatched with grass.

Flooring Will consist of 8 inches square tiles laid the same as in the main building.

Tarring The walling and posts will be tarred within and without to a height of two feet above floor level.

Cook Room

The cook room will be constructed entirely of brick in clay, with tiled roofing, and square brick flooring, walls to be plastered with two coats of mortar, wood work will be jungle wood.
