Read the following paper :—

No. 360. From J. W. RUNDALL, Esq., Acting Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 19th November 1878, No. 148.

In the Gazette of the 22nd October last Mr. H. E. G. Evans, Assistant Engineer, was posted to the temporary charge of the Satur Division.

2. I would however beg to recommend, as a special case, that Mr. D. McNair, Sub-Engineer, be posted to the charge of this division and be allowed to draw the extra allowance to which under Public Works Code, Chapter IV, Section 2, paragraph 9, Clause 11, he would then be entitled to.

3. Mr. McNair is a thoroughly trustworthy and able subordinate, and I can speak to this after working with him for more than four years. His work is always carefully and well done, and from his having been so long in Tinnevely his local knowledge is most valuable. I recommend him therefore for the charge of the Satur Division, believing that this would be the best step for the Government interests.

4. Mr. McNair has about two more years to serve before he attains the age of fifty-five, but I believe him to be still physically capable of conducting his work, and I think it would be a graceful recognition of many years' faithful service if Government are pleased to nominate him to charge of the division.

5. In their Order, No. 2,961, of the 14th December 1872, Government refused to promote Mr. McNair to Executive Engineer on the recommendation of Colonel Roberts, R.E. My present suggestion is merely that Mr. McNair's services be utilized in a post for which he has special qualifications, and that he be allowed to draw the extra allowances to which his holding the charge of an Executive Engineer would entitle him.

6. If my recommendation is acceded to, I would request that a Supervisor be posted to the Circle for charge of the Srivilliputtur Sub-division. Mr. Evans would then be available for transfer elsewhere.

No. 361. ORDER THEREON, 29th November 1878, No. 4,577 W.

HIS GRACE the Governor in Council is unable to accede to this request, which is opposed to the principles of the new organization.

Colonel C. A. Foord R.E.
Chief Engineer P.W.D.

In the Gazette of the 22nd
October last Mr. A. E. G. Evans,
Assistant Engineer was posted
to the temporary charge of the
Satur Division.

I would however beg to
recommend as a special case
that Mr. D. McNair Sub Engineer
be posted to the charge of this
Division, and be allowed to
draw the extra allowance to
which under P. W. Code, Chapter
IV, Section II, para II, clause II,
he would then be entitled to.

Mr. McNair is a thoroughly
trustworthy and able subordinal
and I can heartily recommend him to this after

working with him for more than
40 years. His work is always care-
fully and well done, and from
his having been so long in Lin-
coln his local knowledge is
most valuable. I recommend
him therefore for the charge of
the Satter Division, believing
that this would be the best
step for the Government inter-
ests.

Mr. McNaair has about
2 more years to serve before
he attains the age of 55, but
I believe him to be still physi-
cally capable of conducting
his work, and I think it would
be a graceful recognition of
many years faithful service, if
Government are pleased to
nominate him to charge of the
Division.

In their order No. 29612 of
the 14th December 1872, Government
refused to promote Mr. McNaair

to Executive Engineer on the recommen-
dation of Colonel Roberts R.E.:—
My present suggestion is merely
that Mr. McNaair's services be
utilized in a post for which he
has special qualifications, and
that he be allowed to draw
the extra allowances to which
his holding the charge of an
Executive Engineer would entitle
him.

If my recommendation
is acceded to, I would request
that a Supervisor be posted to the
Circle for charge of the Strivelli-
putur Sub-Division. Mr. Evans
would then be available for
transfer elsewhere.

Yours truly
