GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

9th December 1878, No. 4,674 W.

Buildings and Roads.

Civil Works.

Read the following paper:—

No. 111. From G. T. WALCH, Esq., Acting District Engineer, Godavari District, to the Chief Engineer, Buildings and Roads, dated Dowlaisvaram, 19th November 1878, No. 2,711.

With reference to your telegram of 16th instant, received by me on 17th instant, when I was in camp and away from my office records, I have the honor to inform you that the plan for the new buildings in connection with the Collector's Cutcherry was received on 8th July, and that since then the frequent and heavy rains and the destruction of the Central Delta head sluices, which necessitated the taking of all the Government boats off carrying materials for other works for some weeks, have prevented more being done towards the construction of the buildings than the collection at the site of 464 cubic yards of stone, 5 garces of lime, 9 garces of sand, and the putting in hand of some of the wood work in the Workshops.

2. When the weather is more settled the foundations will be commenced.

3. The Registrar having asked for provision in the building of offices for him the matter is under reference to the Collector.

No. 112. ORDER THEREON, 9th December 1878, No. 4,674 W.

THE Superintending Engineer will arrange for the immediate prosecution of the work which is essential for the safety of the treasure.

SIR,

With reference to your tele-
gram of 16th Instant, received by me
on 17th Instant when I was in camp &
away from my office records, I have
the honor to inform you that, the plan
for the new buildings in connection
with the Collector's Cutcherry was re-
ceived on 8th July, and that since then,
the frequent and heavy rains, and
the destruction of the Central Delta
Head sluice, which necessitated the
taking of all the Government boats
off carrying materials for other works
for some weeks, have prevented
more being done towards the con-
struction of the buildings than the
collection

collection, at the site, of 646 cubic
yards of stone, 5 Garces of Lime, 9 Garces
of sand, & the putting in hand of some of
the wood work in the Workshops.

2. When the weather is more settled,
the foundations will be commenced.

3. The Registrar having asked for
provision in the Building of offices for
him - the matters ^{is} under reference to the
Collector.

I have the honor to be,

Sir,

Your most obedient Servt

C. S. D. S.
